

NAVAL BATTLE RAGES IN GULF; GERMAN SAILORS IN NEW MUTINY

MORSE TO ENTER RACE FOR MAYOR OF OAKLAND

Commissioner Consents to Be Candidate of Recall Forces Against Davis; Policy Firm

FORMAL ACCEPTANCE IS EXPECTED TODAY

"More Government and Less Politics," to Be Slogan in the Campaign; No "Strings"

Commissioner Fred F. Morse will be the candidate of the recall forces against Mayor John L. Davis at the coming election. Morse's acceptance of the nomination tendered him by the convention called by the recall campaign committee was formally announced today, and it was indicated that the formal announcement of his acceptance and candidacy would be given out this afternoon.

Following conferences with his political advisers, which continued almost the entire day, Morse held a long conversation with the committee appointed by the recall convention to seek his acceptance of the nomination.

At this meeting he made certain conditions upon which he would be willing to run. It was unofficially indicated today that these conditions would be met.

FREEDOM OF ACTION SOUGHT BY MORSE

What the terms of the ultimatum delivered by Morse consisted in was not disclosed. It has been inferred from statements made by the commissioner, however, that they had to do with the conduct of the campaign and with his freedom of action should he be elected as mayor.

Friends of Morse declare that he would be willing to run only on condition that there should be no "strings" upon his acceptance. They explain that he went into the office of commissioner without being hampered by any pre-election promises that would curtail his freedom of action, and that he made good. In the same way they say he is determined to enter upon the present fight, if he accepts, untrammelled by any political connections with factions in any part of the city.

"More government and less politics" will be Morse's slogan, friends of the prospective candidate asserted. It is also intimated that he will base his campaign, not upon a personal attack upon Mayor Davis or George Kaufman, but upon the broad stand that a change is needed that will make harmony and attention to the actual business of city administration possible.

It was rumored today that L. A. Moberly, 1251 East Twenty-sixth street, is to be a candidate against Mayor Davis. Moberly is well known in East Oakland. He is secretary of the Atlas-Imperial Engine Company.

STRONGEST MAN IN EASTERN SECTION

Morse, should he be elected, will be the first mayor of Oakland from East Oakland and the annexed district. His home is at 735 Seminary avenue near Mills College. He is recognized as one of the strongest men in civic life in the eastern section of the city and has a strong following there. At the same time, he is not section and since he has been in office he has considered the interests of the community at large.

Morse is 45 years old and was born in Iowa, his family having moved to England in 1848. He received his early education in Iowa and Wisconsin and was graduated from Beloit College.

With his two brothers, C. S. Morse and G. A. Morse, he became interested in wholesale mercantile business in Louisiana and later in rice milling and the oil fields, where their enterprise proved successful.

Morse, his father and two brothers came to Oakland twelve years ago and the Morse Realty company engaged in handling several large tracts of land and in development work, was organized. Morse has taken an active part in the business and civic life of Oakland since that time, and six years ago was a candidate in his district for supervisor. That is the only political campaign in which he was a candidate here until he was elected commissioner in the recent race, his opponent having been Harry S. Anderson, then incumbent.

PROTESTS NEW GERMAN TAX LAID ON LILLE

Mayor's Letter Attacks Imposition; Public Pays Tribute

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Oct. 18.—The dignity and nobility with which officials of the stricken city of Lille, France, have met the extortionate demands of their German masters is revealed in a letter from Charles de la Salle, mayor of Lille, to the German general-in-chief, von Gravenitz, a copy of which has reached here. The mayor wrote:

"Our letter is at hand. It causes me very great sorrow. Hardly had we repaid the balance of the imposed tax of 24 millions, when you asked for a new payment of 33 millions. During the first year of your occupancy, when Lille was still in possession of the greater part of its resources, you claimed the sum of 23 millions; during the third year, when the city was in dire distress, you doubled the tribute and raised it to 60 millions."

"Such heavy demands are as extortionate as they are unjustified. They are contrary to the spirit and letter of the Hague convention. They are absolute contradiction with the comity that the German general staff made in this convention. I pointed out in my last year's correspondence that the city was increased in portion as requisitioned ruin and devastation are piled up on this unfortunate city. In fact, you threatened us with the most severe punishment in case of resistance to your will and especially with a fine of a million per day for delay. Under these conditions, it only my personal safety and that of a few citizens were imperiled, I would not hesitate emphatically to refuse demands which seemed to me to be an abuse of force and violence of right. But the fate of a population weakened by three years of privation is at stake and I have not the courage to expose it to new cruelties."

"In consequence, I beg to state in the name of the municipal council which I represent that the city of Lille, curbed under the voice, isolated from the world, unable to appeal to any court against the arbitrary power of which she is the victim, will pay the new contributions on the dates indicated, but she will pay them under duress."

Mrs. Eustace Bell Begins Divorce Suit

Alleging cruelty and listing several more charges, Mrs. Eustace Bell, 240 Grand avenue, this afternoon filed a divorce complaint against Eustace Bell, well known broker and society man. Sensational charges are made by Mrs. Bell. She claims that her husband deserted her many times for weekly intervals—said at various times that he did not wish to live with her any more—that while she was in the Adler Sanitarium, San Francisco, he lavished money on other women and that he urged her to get a divorce.

Mrs. Bell asks for divorce, \$500 alimony, monthly, and \$1000 for her attorney's fees. She says that Bell owns property in Stanislaus, Fresno and elsewhere and also has a share in the undivided Thomas Bell estate. She alleges that his wealth amounts to \$1,000,000. In the complaint, Mrs. Bell says that she is now in Reno, endeavoring to establish a legal residence for divorce purposes. She asks for a restraining order from the court, stopping any disposal by Bell of his property, and claims that he threatened to tie up his estate so that she could not share in it.

Mrs. Bell is the daughter of Mrs. A. E. Armstrong, 915 Lakeshore avenue, and is well known in society on both sides of the bay. Her attorney is Hugh K. McKevitt of San Francisco.

ASK U. S. TO AID

WASHINGTON, Oct. 18.—Neutral diplomats, including South Americans, today brought pressure to bear on the United States Government to mediate in the detention of Swedish mail at the British embassy. They fear that the British are allowed to retain these mail sacks which were seized at Halifax, a dangerous precedent will be established.

The United States wants the mail situation cleared. Through Ambassador Page this government has quietly requested Great Britain to release the pouches.

TRAIN IS HELD UP

DIERSBURG, Tenn., Oct. 18.—A passenger train on the Chicago, Memphis & Gulf railroad was held up by robbers today at Minton, Tenn., about ten miles north of this city. Reports reaching here say the express car safe was dynamited and a large sum of money taken by the bandits.

IOWA WETS LEAD

DES MOINES, Ia., Oct. 18.—The wets are holding the lead early today in the returns from Monday's prohibition election, their advantage being from 1000 to 2500. It will be about ten days before the official result can be determined.

REVOLT OF CREWS OF KAISER IS SPREADING

At Ostend and Pola Big Navy Revolution Breaks Out; Officers Thrown Into the Sea

ARRESTS ARE MADE, MORE TROUBLE FEARED

Enemy Government Seeks to Suppress News of Uprising; Diversed Destroyer Is Saved

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

AMSTERDAM, Oct. 18.—A mutiny among German sailors at the Belgian port of Ostend, who refused to go on board submarines, is reported by the Belgisch Dagblad. The newspaper says an officer was thrown into the sea and that thirty mutineers were removed in handcuffs to Bruges.

WASHINGTON, Oct. 18.—Official diplomatic despatches received here today report mutinies in the Austrian navy and gashes between Austrian sailors and crews of the German submarine fleet base at Pola, in which officers on both sides have been killed and which resulted in a decision to change the base of the German fleet.

AUSTRIANS SEEK TO SUPPRESS NEWS

Despite the attempts of the Austrian admiralty to suppress the news, it reached here today, coming by way of Bern. The Austrian crews are said to have revolted under ill-treatment of officers and bad food, while the clash with German submarines was caused by the overbearing conduct of the latter.

The tension between the Austrian and German crews became so alarming that extraordinary measures were taken to prevent a recurrence of the fighting between them, which included the decision to move the German submarine fleet from the Austrian base at Pola to another point farther south on the Adriatic.

The news of mutiny in the Austrian navy, received in the capital today almost at the same time as Amsterdam despatches reporting further mutinies in the German navy—this time among submarine crews—created a profound impression among American naval officers and among other officials who have been watching the situation with expectation since the first mutinies in the German fleet were reported a few days ago.

BY UNITED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Oct. 18.—The first American destroyer victim of a German U-boat was crippled today in a European harbor, while one of her crew is dead and five others are slightly injured.

The dead man, Osmond K. Ingram, gunner's mate of Pratt City, Ala., is the seventeen-year-old son of a naval officer who has been watching the situation with expectation since the first mutinies in the German fleet were reported a few days ago.

Navy authorities regarded today as remarkable the fact that the vessel had merely been crippled when once it came within line of the torpedo fire. They explained the escape as probably due to the fact that the submarine fired was impaired by the speed or quick maneuvering of the destroyer. American "luck" and gameness were commented upon.

While the navy withholds other than the mere fact that the vessel was torpedoed and made port, it is assumed that she can be repaired and that she will be back on duty within a short time.

The wounded men are: Herman H. Pankratz, St. Louis; William E. Merritt, New York; Frank W. Kruse, Toledo; Patrick Rutledge, New York; William Selmer, Dundas, Minn.

VESSEL PROBABLY HIT AMIDSHIPS

No details of the encounter were made public. The name of the ship and the exact location of the attack are withheld.

But the casualties were announced immediately upon receipt of a message from Vice-Admiral Sims, in accordance with the pledge of Secretary Daniels to make public promptly all casualties in the fleet abroad.

The large number of firemen men of the list would indicate that the vessel was hit amidships. Yet if it had been so torpedoed, naval officers do not see how she could so promptly have made port.

EX-CHAMP IS ILL

CHICAGO, Oct. 18.—Robert Fitzsimmons, the former heavyweight champion, was taken to a hospital today seriously ill with what physicians believe borders on pneumonia.

On board U. S. destroyer, off coast of France. Gun crew on lookout for submarines. The men are shown wearing caps knitted by the "girls they left behind."

Hindu Plot to Slay British Is Uncovered

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE

CHICAGO, Oct. 18.—Wholesale slaughter of British officials, investigators and spies, it became necessary, was a part of the plot to foment a revolution in India, for which four of the alleged conspirators are on trial here, according to testimony offered today by Sukumar Chatterji, star witness for the government.

Chatterji declared he was introduced to the plot by Ram Chandra, editor of a San Francisco Hindu publication, who also is under indictment but at liberty. He declared Chatterji told him the members of the alleged conspiracy would not hesitate at kidnapping or murder of officials to gain their ends.

The witness testified, however, that he knew of no definite murder plans being laid. He asserted the general plan was to have the natives of India revolt while German forces attacked from the outside.

Chatterji also testified that he was present at a meeting in Manila in which plans were laid for the slaying of Dr. Frederick Cook, noted explorer. George Paul Boehm, Chatterji said, was to pass himself off as Dr. Cook and go through India with his followers.

SAN FRANCISCO, Oct. 18.—The seizure of a suitcase full of correspondence, photographs and documents in the apartments of the Misses Amy Dudley and Marion Hamilton in the Woodside Apartments, 1206-Fillmore street, in a raid conducted by United States Marshal James Holohan this morning, is expected to have a great bearing on the government's case in the Hindu Sacramento plot, which is set for trial in the Federal District Court November 20.

It was learned that the government has employed the Murrell Detective Agency to procure additional evidence in the Hindu cases and the raid this morning was as a result of their investigation.

There are 159 indictments already returned in the Hindu Sacramento case, which involves prominent San Francisco and Oakland business men.

YARDS TO REOPEN

Coast shipyard labor troubles are believed to be near an end. The federal shipyard labor adjustment board, now in Portland, will leave for the bay district probably before the end of this week and with representatives of the unions and employers from Seattle, Portland, Oakland and San Francisco, permanently adjust labor difficulties.

In the meantime arrangements are under way to reopen Portland shipyards, closed for four weeks, with the old crews back on the job. The yards probably will reopen early next week.

WILL NAME THEM

WASHINGTON, Oct. 18.—The country may yet know the "thirteen or fourteen members of Congress" whom Representative J. Thomas Hefflin of Alabama thinks have acted "suspiciously" with German propaganda.

Hefflin will name the "thirteen or fourteen" in an "extension of remarks" which appears today in the final issue of the Congressional Record for the recent session.

ALL REMAINING MEN IN DRAFT TO GO INTO CAMP

All remaining certified white men in the draft from the states of Washington, Idaho, California, Nevada, Montana, Oregon, Wyoming and Utah were ordered today from Washington to enter for Camp Lewis, American lake, Washington, during the five-day period beginning November 2.

Within this period all the draft division boards are expected to send sufficient men to fill the vacancies that remain in the first quotas from which will be made up the new national army.

Notification was received this morning by R. C. Bitterman, chief of the draft division board, that his resignation as a member of Draft Division Board 6 has been accepted by the President, and William J. Haskins, a civil engineer of Oakland, has been appointed to succeed him. Bitterman's resignation was the result of a nervous breakdown that he suffered as a result of long and hard work on the board when it was in the early stages of organization.

Healey's Auto Upset; Dies From Injury

Edmund Healey, prominent contractor of this city, died today at the county hospital in Sacramento from injuries received when his automobile capsized on Folsom boulevard, Sacramento, late yesterday according to word received by his Oakland relatives.

Mrs. Healey and two other occupants of the machine, Mrs. G. E. Wilson and H. A. Johnson of Folsom, were injured in the crash with the automobile which occurred near the East Lawn Cemetery in Sacramento, have not reached Healey's relatives.

Healey, accompanied by his wife, went to Sacramento nearly three months ago to carry out a sewer contract. He was in partnership with his brother-in-law, William J. Tobin of 527 Santa Ray avenue, in a sewer contracting business. Several brothers and sisters living in this city survive Healey besides his widow. He was 38 years old. The Healey home is at 686 Forty-first street.

"SO," SAYS KAISER

LONDON, Oct. 18.—The correspondent of the Berlin Lokal Anzeiger who traveled on the train which took Emperor William to the Balkans and Hungary in the restoration of the Emperor, says a despatch to the Daily Chronicle from Amsterdam, writes:

"His majesty sat down to the table with the observation that he had just read the Emperor's first speech as French premier."

"So, M. Painleve wants Alsace-Lorraine, does he?" exclaimed the Emperor. "Good, but he must come and take it."

URGE U.S. CONTROL

WASHINGTON, Oct. 18.—Public ownership of railroads, telephones and telegraph lines as a military advantage and an economic improvement, is approaching rapidly, according to a special report laid before the convention of the National Association of Railway Commissioners here.

MILKMEN HELD

CHICAGO, Oct. 18.—Charles H. Potter of Elgin, Ill., chairman of the Milk Producers' Association and four other officials were indicted today on charges of conspiracy to fix the price of milk.

RUSS FORCE TRAPPED; WARSHIP SLAVASUNK

Huge Teuton Fleet Engages Slavs; 10,000 Prisoners Are Taken at Oesel Island Fight

HAIG KEEPS HIS FORCE IN TRENCHES

Bodies Washed Ashore on the Danish Coast Indicate That Enemy Battleship Has Sunk

BERLIN, Oct. 18. (official).—The Russian naval forces in the Gulf of Riga have been trapped by the Germans, according to the announcement it says German naval units are lying in the eastern portion of Riga Bay, south of Oesel Island, and are being the passage westward.

The Germans have taken 10,000 prisoners and fifty guns on Oesel Island, the war office reports.

BATTLESHIP SEAVA SUNK BY GERMANS

PETROGRAD, Oct. 18.—One Russian battleship, the Seava, has been sunk in a naval engagement in which for a considerable time Russian warships stood off Germany's strong fleet at the entrance to Riga Gulf, an official statement announced today. Complete occupation by the enemy of the island of Oesel was reported, but the statement said everything of military value had been destroyed before the Russians were forced back.

"Our ships defended for a considerable time the entrance to Moon and the Riga Gulf," the war office stated, "and only severe damage caused by dreadnaughts forced us to retire to Moon sound."

"The Seava was sunk by hits below the water line and nearly all her crew was saved."

"Oesel is completely occupied by the enemy, but before our retreat everything of a military utility was destroyed."

The Russian battleship Seava was a class C battleship of 13,516 tons and a length over all of 370 feet. She had a speed of 13 knots and carried a heavy belt of Krupp armor. Her main armament before the war included

(Continued on Page 2, Col. 3)

An interesting bit of information—

Three hundred and seventy-three Carrier Boys are necessary to deliver the OAKLAND TRIBUNE into the homes of our subscribers in Oakland, Alameda and Berkeley, alone.

The number of papers carried by each boy averages about 87. Their total pay-roll is \$2200 a month, not including the route men, inspectors, etc., also necessary.

Many of the prominent business men now active in our midst will proudly tell you of their first business experience, the care of a TRIBUNE route twenty years ago and longer. Some of them, the same as many of our present carriers are doing, manfully tossed their monthly pay check into mother's lap, adding their earnings to the family exchequer. Often times the carrier's pay makes it possible for him to continue his schooling into the higher branches of learning with its many advantages, to the boy in his efforts in later years, to get ahead.

So, when you place an advertisement in the columns of the OAKLAND TRIBUNE, think of this small army of messengers you have employed to carry your message of merchandise and service into the homes of Oakland, Alameda and Berkeley, alone.

NOTE OUR PAID CIRCULATION ON OCTOBER 15, 1917:

Oakland, Berkeley and Alameda 32,361
Suburban District 4,658
Country District 7,044

Total Paid Circulation 44,063

Only A. B. C. paper in Alameda County—which means—"only newspaper with a proven circulation."

GOVERNMENT WILL SEIZE STORED COAL

WASHINGTON, Oct. 18.—The fuel administration plans to seize temporarily excess coal hoarded at several Ohio and Pennsylvania points. Later it will replace it. For the present, however, it is urged that excess stores should be treated exactly as though the coal were stored at the mines. The government will pay government prices and redistribute the excesses to those who need it. It is estimated that one million tons are cached in Ohio.

Dr. Harry A. Garfield, fuel administrator, admitted today that the situation in the central coal fields, where some 20,000 miners are already on strike and other walkouts are threatened, "looks serious."

"I am still giving the subject of increases my whole attention," he said, "and I hope soon to be able to announce a decision that will clear up the whole matter."

John P. White, president of the United Mine Workers, urged that every effort be made to get the men to return to work. Unless the strikes come to a halt at once White will go to Illinois to cope with the situation in person.

END SATURDAY.

SPRINGFIELD, Ill., Oct. 18.—The Illinois coal strike of 35,000 miners, closing more than a hundred and fifty miles and lessening coal production 500,000 tons daily, will be over by Saturday. This is the opinion of Colonel J. W. Jefferson, chairman of the executive board of the Central Illinois Coal Operators Association, who after a long delay in decision to disclose his source of information, declaring he is not at liberty to do so at present. Reiterating the belief of an early settlement is the announcement that Frank Farrington, president of the Illinois United Mine Workers of America, has called a meeting to pit committees of the 300 local unions of the state to be held in Springfield Friday. Farrington, who is in Chicago today, is expected to return here late tonight.

ST. LOUIS, Oct. 18.—St. Louis will be without coal within three days. Prominent coal dealers made this prediction this afternoon in discussing the Illinois strike. Director of Public Welfare Schmoll announced plans for the establishment of eight municipal coal distribution centers at which the poor may obtain coal at reasonable prices this winter.

CHICAGO, Oct. 18.—Unyielding in the face of positive orders from Farrington, president of the Illinois Federation of Miners, and threats of drastic measures by United States Fuel Administrator Garfield, striking miners of the Illinois coal fields today are showing no disposition to return to work until their demands are granted. Conscription of labor to operate the mines in order that a fuel famine through the Middle West may be averted is regarded by coal operators today as probable unless the striking miners agree to return to work in a few days.

JOSEPH PLAW DIES

Shipping men of Oakland and San Francisco were shocked to hear of the death Monday of Joseph Plaw, at his summer home in Concord. For the past fifty years he had been with the firm of Farratt & Co., twenty-six years of that time being spent as vice-president of the concern. Funeral and interment were private, with only immediate members of the family present.

A native of England, aged 79 years, he came to Oakland as a young man, residing here continuously for forty years. As a youth he entered the employ of the San Francisco shipping firm and worked his way to the position of vice-president. He was vitally interested in the affairs of the Tenth Avenue Baptist Church, of which he had been a member for thirty-six years. Surviving members of the family include four daughters—Eleanor, Vada Plaw, Marie Victoria Plaw, Fannie Dawson Plaw and Mrs. Jacob Green Jackson, and one son, Alfred Dixon Plaw.

WOMEN NEEDED

LONDON, Oct. 18.—Ten thousand women recruits a month for use in the army auxiliary service are being appealed for here. The chief need is for domestic workers, typists and automobile drivers. One of the recruiting posters says:

"Although the women must be strong and reliable, it must not be supposed that army life is all hard work. They will have games and musical evenings and dances, to which each woman can invite one soldier friend. They play as hard as they work, and they live a wholesome life."

The women are under military discipline, but they do not march to work, nor do they salute their officers or officers of the army.

The recruits will be sent to France as fast as they are enrolled.

SHORTAGE GRAVE

WASHINGTON, Oct. 18.—Reports to the State Department indicate that the German food situation this year has not relieved the food situation to any appreciable extent. It is known that there is a great scarcity of fats and animal food in general and that the supplies received from Rumania and neighboring neutrals are not making up for the lack of proteins. It has been definitely established that while some of the crops were normal in volume, the scanty supplies in most commodities have been augmented.

ASKS SEPARATION

Because her husband, Harland Walcott, has another name and another wife, Jewel Viola Rose Walcott, who says she married him in good faith, wants the marriage annulled, according to an action in equity filed with the county clerk today.

Mrs. Walcott said that when she married Walcott in San Francisco in 1913, she did not know that as Arthur W. Swingle he had married Frances George, and that the marriage was still in force and effect.

GERMAN FOOD RATION BELOW HALF NEEDED

WASHINGTON, Oct. 18.—Recently obtained figures on the German weekly food ration were made public by the food administration today with the observation that it is far below the amount required to maintain bodily health and vigor and is likely to have serious and permanent results.

Computed in terms of American housekeeping, the weekly ration amounts approximately to four and a half pounds of bread, a half peck of potatoes, a cupful of beans, peas or oatmeal, a half pound of meat, twelve cubes of sugar, six cubes of butter and an equal amount of other fats. The calorie value of these foods in the average ration is less than half the amount estimated by the food administration as sufficient for a person in a sedentary occupation.

DRAFT SYSTEM MAY BE CHANGED

WASHINGTON, Oct. 18.—A comprehensive new plan for applying the army selective draft which would take first only men without dependents and of particular value to war industries, and establish various grades of dependency and industrial value from which future drafts would be made strictly on the selective basis, has been worked out tentatively by the provost marshal general's office and discussed with the President.

The plan was submitted recently to a conference of civilians who directed exemption board activities in a number of States and received in endorsement of most of them, who are now discussing the proposed plan with their State governors.

It is proposed to formulate in each local draft district a table of all registrants, placing each in a column denoting his dependents and industrial value in the war's prosecution.

Industrial classes under consideration in this connection are farmers, shipyard employees, munition workers, railway and transportation employees, miners, steel plant and motor industry workmen, and certain other individual plants or industry branches to be designated from time to time by the President or the War Department as temporarily essential. The latter classification might include plants making military clothing, harness, first aid materials or professions, such as chemists and other scientific men more needed for war research than to carry arms.

In selecting men for examination, boards would first take all men physically fit, having neither dependents nor value in essential war industries. When this class was exhausted, draft authorities would draw on the classes having the slightest dependency claims and the least value in essential industries. Theoretically, the draft would work down through the table to the classes with most dependents and highest industrial value.

No class would be exempted as such, but the valuable men would be placed on that they would not be called until the need for soldiers became more urgent and all the less essential classes were exhausted.

The plan involves a determination by the government of what industries are the most valuable, and this is giving officials considerable difficulty. Farmers' organizations, shipping board officials and shipbuilders are munition makers, railroad heads, coal operators and many others are insisting on the prime importance of their own employees in civil work.

It is understood the entire program will be made known as soon as it is completed and approved by President Wilson to allay the anxiety prevailing throughout many industries over the next draft, which had been planned for as early as December before the new plan was proposed, but which now may be delayed.

The proposed plan would meet President Wilson's objection to class exemptions.

ADMITS PAYMENT

COPENHAGEN, Oct. 18.—The Deutsche Bank admits in the Vossische Zeitung, which prints four columns on the Bolo Pasha affair, that it transferred a sum of money to Ambassador von Bernstorff. The bank acted upon instructions from a source "generally responsible for the payment of salaries and other payments to our Ambassadors and did not concern itself with the purposes to which the money was applied."

The Deutsche Tages Zeitung makes the Bolo affair the text for an attack on the judgment and ability of von Bernstorff, whose candidacy for the imperial chancellorship evidently is still feared by the Pan-Americans.

MUTINEERS HELD

SEATTLE, Oct. 18.—Eight sailors of the gasoline schooner Ethel Walker were taken into custody by Federal officials today on charges of having engineered a mutiny at Vancouver, B. C.

Captain J. M. Smith said the men struck at the Canadian port for higher wages, and one member of the crew said that the men had been paid off the men, but they refused to leave the ship. The captain then brought the ship to Seattle, after notifying the Federal authorities by telegraph to meet the boat.

CRIME SPREADS

LONDON, Oct. 18.—The Times devotes a column to a despatch from its Petrograd correspondent describing the state of anarchy spreading throughout the Russian provinces. The despatch mentions agrarian disorders in the districts of Novich and Ekaterin, rising in Kharkov resulting in the arrest of fifty ring-leaders, street fighting in Kursk, and illicit distilling at Verones which led to wholesale drunkenness and the severing of communication between Tashkent, Turkistan and Petrograd.

"In Petrograd," the correspondent adds, "conditions are little better with the police searching for 15,000 criminals."

TO BACK CREDITS

AMSTERDAM, Oct. 18.—By a vote of 284 to 26, German majority Socialists, meeting at Warburg, voted down a motion to recommend that Reichstag members of the party oppose war credits for the government, according to word received here today.

Previous to this, one despatch had asserted that the meeting approved a vote against the credits.

CARS FOR FOOD

WASHINGTON, Oct. 18.—California railroads were requested by the food administration today to discontinue loading barley for the present, in order to make the car supply for hard-to-get important foodstuffs now delayed on account of the car shortage.

FLEETS BATTLE IN GULF OF RIGA

(Continued From Page 1)

four 12-inch guns, twelve 6-inch guns and four torpedo tubes.

The German fleet, which forced the Russian warships to withdraw, was a formidable one, the official statement declared. Fifty-five ships were seen at one time.

"The German vessels were much superior to ours," it was stated. "They included two dreadnaughts of the Grosser Kurfurst class. At the entrance to Moon sound our shore fire destroyed enemy torpedo boats trying to approach our ships."

The German dreadnaughts, however, soon afterwards put these batteries out of action. At one time fifty-five enemy ships were seen."

There are four ships in the German navy of the Grosser Kurfurst class—the Kronprinz, the Grosser Kurfurst, the Mark Graf and the Konig. All are of 26,575 tons, capable of 23 knots an hour and of 530 feet length. They carry very heavy Krupp armor and are armed (for use before the war) with ten 12-inch guns in super-imposed turrets, fourteen 5.9-10-inch guns, twelve 3.4-10-inch guns and five submerged torpedo tubes.

LONDON, Oct. 18.—A captured order issued by General Ludendorff says the Teutonic allies are employing airplanes economically with a view to the great battles of the future.

"We should be working to our work and wear out our air formations which are inferior in number," the order says. "The infantry must be told it is impossible to prevent the enemy flying over our lines. The airman must be used sparingly and at calm times. German must have as many machines as possible for great emergencies."

HAIC OFFENSIVE HELD BACK

Field Marshal Haig is still keeping his infantry in their trenches on the Flanders front, while the heavy bombardment of the German lines continues. There has been infantry fighting on the French front, although apparently not on a large scale. The Germans attacked northeast of Verdun, near Bezonvaux, but met with a repulse. The artillery battle is still spirited in much of the Verdun area and along the Aisne front along the Chemin-Du-Damme.

Air fighting between French and German machines has been unusually intense in the past few days. So far this week 36 German machines have been driven down by the French, some of them destroyed and others badly damaged.

COPENHAGEN, Oct. 18.—Many bodies of German sailors were washed ashore from the sea today. They are believed to be from a German warship which has been sunk. The sound lies between Denmark and Sweden, connecting the Kattegat and the Baltic.

Following their occupation of Oesel, Riuo and Abro islands, at the entrance to the Gulf of Riga, the Germans are today trying to extend their domination to Dagö island, the second largest in the group. German warships have been heavily shelling the island with a view to opening the way for the landing of troops.

MRS. RYAN DIES

SEPPERIN, N. Y., Oct. 18.—Mrs. Thomas Fortune Ryan, wife of the multimillionaire financier, died last night at his country home here.

I'll Show You How Corns Peel Off!

Ever Peel a Banana Skin? That's It! "I should worry about those corns— I just put some 'Gets-It' on." Corns used to plaster the world into a frenzy, enduring pain, digging, slicing toes, tinkering with plasters and tape, trying

"Gets-It" Puts Your Feet in Clover—It Ends Corns Quickly!

to fix a corn so it wouldn't hurt. But now no one in the world has to "Gets-It" because the moment you put "Gets-It" on it means the end of a corn. There is nothing in the world like "Gets-It"—it is sure and certain—nothing that you can count on to take off a corn or callus every time, and without danger. The corn never grows back. "Gets-It" will not get it. It never irritates the flesh, never makes your toes sore. Just two drops of "Gets-It" and presto! the corn vanishes. Shortly you can peel the corn right off with your finger and there you are—corn-free and happy with the toe as smooth as a green pond. "Never happened before, did it? Guess not. Get a bottle of "Gets-It" today from any drug store, you need pay no more than 25c, or sent on receipt of price by E. Lawrence & Co., Chicago. It is sold in Oakland and recommended as the world's best corn remedy by The Owl Drug Co.—Advertisement.

THEY GAVE THIS RUN-DOWN MAN VINOL

And He Got Back His Strength and Energy

Sheboygan, Wis.—"I was all 'fagged out'—run down, no appetite, nervous, sleepless nights and drowsy during the day, and was not fit to work. A friend told me to take Vinol. I did so, and can now eat three square meals a day. I sleep well, am alert, active, strong and well and have gained eleven pounds."—A. W. Highy, Sheboygan, Wis.

This is because Vinol contains the elements needed to create a healthy appetite and restore strength. The complete formula is printed on every package. This is your protection. "The Owl Drug Co., Oakland, and at the best drug store in every town and city in the country.—Advertisement.

ASKS WOOLSEY TO SHOW HAND

(Continued From Page 1)

Taking the stand that Attorney A. J. Woolsey should be required to declare who his backers are in the proposition for the lease on western waterfront land, Commissioner Frederick Soderberg today asked to be excused from voting on final passage of the ordinance granting the lease. The measure was adopted by the votes of Commissioner Edwards and Jackson and Mayor Davie. Commissioner Morse was absent from council. The lease deal will be finally consummated after the expiration of sixty days allowed under the charter for a referendum should recourse to the electorate of the city be taken. The company must then deposit a bond of \$25,000 to insure fulfillment of its lease contract.

Attorney Woolsey was not present for the proceedings nor were his former rivals for the lease, the Chicago Concrete Company, which he outbid for the privilege. Commissioner Edwards stated that so long as the bond is provided the city will be protected.

GIVE TO RED CROSS

LONDON, Oct. 18.—Contributions in connection with "our day" collection for the British Red Cross which will be made tomorrow are led by a gift of \$200,000 from the American Red Cross.

Other contributions include \$10,000 from King George, \$1000 from Queen Mary and \$3000 from the Prince of Wales.

MAY PROSECUTE

ATHENS, Monday, Oct. 15.—The prosecution before the high court of the members of the cabinet of former Premier Skouloudis, excepting Admiral Countourous, was recommended in the Chamber of Deputies by an investigating committee. Charges of the violation of the penal code and the law dealing with ministerial responsibility were the basis for the recommendation.

DIVER ON EXHIBIT

NEW YORK, Oct. 18.—A German submarine captured by the British soon will be on view in New York. It arrived in three sections in the hold of an English steamship yesterday, and was unloaded today to be assembled in Central Park as an exhibit to aid the Liberty loan drive.

FIVE SONS SET GREAT EXAMPLE, WRITES WILSON

NEW YORK, Oct. 18.—Vincent Kelly, a Jersey City yardmaster, whose five sons enlisted in the army and navy, has received the following personal letter from President Wilson:

"My Dear Mr. Kelly: I want to give myself the pleasure of telling you how gratifying and heartening it is to have brought to my attention such an inspiring example as that set by your five boys, with all of them under arms in the service of the government. You may well be proud of such a record, and I warmly congratulate you on the fine spirit you and they have exhibited."

"Cordially and sincerely yours,
"WOODROW WILSON."
The oldest son is 25 years old.

PETTIGREW KNOWS OF NO INDICTMENT

CHICAGO, Oct. 18.—Former United States Senator Pettigrew of South Dakota, who is here taking medical treatment, was still without official information today of an indictment said to have been returned against him in St. Paul recently under the Espionage Act. The former senator said that in interviews, pamphlets and speeches he had asserted that the United States should not go to war except to repel an invader.

and the youngest 17. Three of the boys are of draft age, but all volunteered.

APOLLO
Player Piano

We can't brag over Apollo
chappies.

But we can and do brag over
Apollo quality.

And that's so utterly in a class by
itself that the extra cost sinks into comparative
insignificance.

Some people insist on quality in
the first place. Others insist on mediocrity but
later pay full price as the penalty of dissatisfaction.

Come in and let us demonstrate
how that principle applies in the purchase of a
player piano!

You are welcome—whether you
buy or not.

The Niles B. Allen Co.
Talking Machines, Records and Sheet Music.

Sacramento, Los Angeles and Oakland.
P. S.—Suppose the Apollo does cost a little more.

The
Ultimate
End

of Chinn-Beretta service is the complete and unqualified satisfaction of our patrons. A state of perfect harmony must exist between our organization and our customers before any transaction is considered closed. Nothing to assure the entire satisfaction of those who patronize us can be left undone by our employees.

The Chinn-Beretta slogan, "The customers' interest first, last and all the time," is indelibly impressed upon the memory of every individual in our employ, from the apprentice in our grinding room, to the chief executive.

**A Sale at Last—
and Such a Sale!**

Several hundred thousand dollars' worth of the newest style apparel for women and misses to be sold at prices that cannot show a profit.

If you do not attend this demonstration of "Cut Price" selling, you are missing your opportunity of the season

Sale merchandise, in the mind of all people, always consists of "undesirables," old styles, seconds, usually offered at the end of the season.

This extraordinary sale of new style apparel is at the very height of the season, and nothing should detain you from taking advantage of it.

Peculiar conditions have forced us to change from a policy of no sales at any time, to this deliberate cutting off of all profits. Women familiar with the operation of this eight smart shop organization know that we have always given the best values in California. Without ever reverting to sales due to the high cost of everything that goes to make a quality style garment it is

utterly impossible this season to give the well-known Reich & Lievre values, and we have therefore come to the conclusion that in order to turn our stocks in the volume of business that we require we must sell regardless of profits.

A very important point, remember, is that if this, the largest business of its kind, sells without profit, others, to meet such values, must of necessity sell way below cost.

New merchandise coming in daily is marked "to get the money at once"; profits are entirely forgotten.

The new bustle in suits and dresses, the most exclusive coats, the finest Georgette and satin gowns, and an array of beautiful blouses are marked at prices that defy the high cost of its source, and the difficulties that are encountered this season of getting them at all.

Reich and Lievre
1212 Washington Street, Oakland

in California"**

FIREMEN NEAR DEATH IN BLAZE

SAN FRANCISCO, Oct. 18.—Several firemen narrowly escaped death or serious injury, many frame residence structures were threatened, and loss estimated at \$25,000 was caused by a fire shortly after 7 o'clock this morning in the cabinet shop and planing mills of Brass & Kuhn, 58 to 62 Dearborn street. While the fire was blazing the hottest, a group of firemen forced their way inside to play a hose on the flaming interior. Warned by the roar of falling timbers they stepped back just as tons of lumber, stored in supports under the ceiling, crashed to the floor.

The factory, a corrugated iron building, is surrounded by a number of wooden residences and the flames had gained such headway before the department was summoned that additional alarms were turned in to check the spread of the fire.

The flames shot through the crevices of the metal wall and ignited the side of the home of Mrs. W. Crowley, 70 Dearborn street. She and several children were hurried out of the house by the firemen. They succeeded in saving the dwelling.

The fire started in a pile of shavings in the furnace room of the mill, Charles Anderson, a watchman, attempted to cope with the fire with a small hose.

Falling, he ran out and shouted to Johnny Flynn, patrol driver for the Bush street police station. Flynn turned in the alarm.

The fire destroyed most of the interior construction of the building, with large quantities of valuable hardwood lumber stored in the place. Much machinery was destroyed.

WILSON HOPES 'SENTINELS' MAY NOT LOSE VOTE

NEW YORK, Oct. 18.—President Wilson, in a letter to Mrs. Carrie Chapman Catt, president of the National Woman Suffrage Association, made public here, expressed the hope that voters would not be influenced by the actions of the so-called pickets in Washington. The letter, dated October 13, follows:

"Mr. dear Mrs. Catt—May I not express to you my very deep interest in the campaign in New York for the adoption of woman suffrage, and may I not say that I hope no voter will be influenced in his decision with regard to the great matter by anything but the merits of the case? I have done in Washington? However, justly they may have laid themselves open to serious criticism, their action represents, I am sure, so small a fraction of the women of the country who are urging the adoption of woman suffrage that it would be most unfair to argue a narrow view to allow their actions to prejudice the cause itself. I am very anxious to see the great state of New York set a great example in this matter. Cordially and sincerely yours, WOODROW WILSON."

HOME, LOVE, AWRY

Because she says her husband refuses to fix up the house so as "to make it habitable," Mrs. Jeanette Reed is suing for a divorce. Her husband, Wayne W. Reed, refused to fix up the house, according to the information in the complaint, he wanted to get rid of her and not fixing the house was "the nicest way to do it." He works for the Standard Oil Company and they own lots in Fruitvale. Also he has "affinities," the wife alleges, with whom he regularly corresponds.

U. S. MAY TAKE TRONA POTASH

Searles Lake, the largest potash deposit in the world, over which there have been legal battles innumerable complicated by races across the desert by rival claimants and threats of arms, may be taken over by the United States, if the California Trona Company is found to be a foreign corporation, according to Attorney Philip S. Ehrlich. In that event the United States will become the world's largest producer of potash.

The California Trona Company holds a patent to 19,000 acres at Searles Lake, valued at one billion dollars.

Ehrlich has just returned from Washington, where he argued the Government's claim that the California Trona Company is an alien corporation. Most of the stock is owned by Lord Cecil Marne, Baron of Pétrograd.

"If the California Trona Company is barred from receiving the patent rights to the 19,000 acres," said Ehrlich, "a merger will be formed of the present industries operating there, and it is expected that there will be created a plant costing nearly \$25,000,000, and that by the first of next May it will be able to produce 1000 tons of potash a day, the price of which will not be above \$50 a ton. I believe that the charges against the Trona company will be sustained."

The decision rests with Commissioner Clay Tallman of the Government Land Office and First Assistant Secretary of the Interior Alexander T. Vogelsang.

LIBRARIES TO CLOSE

The Oakland Free Library and city branches will be closed on Saturday afternoon, from 2 to 5 o'clock because of the liberty parade.

Ask The TRIBUNE

M. N. Schneider Is Appointed to Welfare Board

MORRIS N. SCHNEIDER.

Brings to New Duties Wide Experience in Varied Activity in Public Service.

Movements toward the betterment of social and other conditions in the east bay district will be given a new impetus and will stand to benefit greatly through the appointment of Morris N. Schneider as a member of the board of public welfare of Alameda county. He brings to his new duties a quarter century of experience in different fields of activity in the public service, being especially prominent in church work.

The building of the synagogue of Temple Sinai was made possible largely through his efforts. He has been for fifteen years vice-president of Temple Sinai and is chairman of the Sunday school board of the temple. He is also a past grand president of the B'nai B'rith order. In fraternal circles he is almost equally well known, belonging to the Oakland Elks, Eagles, Masons and Foresters.

Schneider is recognized as one of Oakland's most progressive business men, having conducted a large shoe store on lower Washington street for the past twenty-five years.

His appointment to the board of public welfare is to fill the unexpired term of Annette S. Powell, who has resigned.

NEWSPAPER DAY NETS \$3855.43

Showing total net receipts of \$3855.43 as the result of the recent Newspaper Day held here, when old newspapers were collected and sold in aid of the Red Cross, Annie Florence Brown, chairman of the committee in charge of the affair, has issued the following report:

The report includes papers sold for the work of the Anti-Tuberculosis Society. The report is as follows:

Total net receipts.....	\$3,855.43

SEND ARMY CAKE

Proof that members of the National Army at Camp Lewis, American Lake, are recipients of much consideration and dainty edibles from the home folks, is contained in a letter written to Mrs. G. J. Thomas, 531 Eighth street, by members of Company G, 353d Infantry, Mrs. Thomas and her sister, Mrs. M. Kerlin, made an immense cake and sent it to the northern cantonments in care of her son, C. C. Brower.

The cake became the object of much regard by members of the regiment, which is composed in part of Oakland and Alameda county men. The note, signed by Rowland Greene, Oscar K. Hink, Elmer S. Dent, Ray S. Quick and Thomas W. Pinnell, stated: "We, the boys of Company G, 353d Infantry, enjoyed the cake immensely and hope next time you'll send a bigger one."

EDITORIAL

Have you arranged with your bank to buy your 2nd Liberty Bond? If not do so tonight. The downtown Oakland banks will be open from 7 to 10 o'clock tonight to receive subscriptions.

A hundred dollar bond can be bought on the following terms—\$2.00 upon signing the application, \$18.00 to be paid Nov. 15th, \$10.00 to be paid Dec. 15th, and \$40.00 to be paid Jan. 15th, or at the rate of \$10 down and \$10 a month.

Fifty dollar bonds for \$5.00 down and \$5.00 a month. Other denominations upon proportional terms.

If you ever require the cash invested in your bonds you can sell them instantly and probably for more than you paid for them. No security in the country can be turned into cash as quickly as government bonds.

Parents are buying these bonds for their children, estates are investing their funds in them, banks are buying them for investment. They're unquestionably the premier investment in America today.

Go down to the bank tonight.

NO PROFIT. SMALL SPACE.

Here's an article we don't make any money on, but like postage stamps, we will be glad to sell just the same because in so doing we make friends.

We refer to tomorrow's sale of 25c Benzoin Cream for 17c.

It's a wonderful lotion for chapped, rough and sunburned skin and is fine for gentlemen after shaving.

If it were not for the fact that we are selling it for cost we would give it a lot of space.

It's up to you—tomorrow and Saturday, 17c.

WHERE IN THE WORLD DO THE FOUNTAIN PENS GO?

We Are Always Selling Them and Yet Everyone Seems to Have One.

What do you suppose becomes of all the fountain pens?

It seems as though everyone in town had a fountain pen and yet they sell, sell, sell all the time.

Yesterday we placed our Christmas order for Waterman's—one of the largest in the city and we expect, of course, to sell them all.

All day long people come to us, as Waterman Agents, with their pen troubles, some happy, some kicking, but all possessors of fountain pens of some vintage.

Those with the new Waterman self-fillers have the best of their friends, because they hardly know what trouble is. About twice a month they dip their pen into a bottle of ink, pull a lever and they're loaded. We make all kinds of fountain pen repairs, and carry all kinds of pens and pen points.

If you're lucky enough to know any one who hasn't a Waterman get them one quickly before someone else beats you to it.

Some of these brushes are worth \$5.00, others \$4.00 and others \$3.50. Upon the cheapest you save more than a dollar.

Now then, we advise you to come in and see these brushes. If you can save a dollar or a dollar and a half it's worth while and you might find just the brush you've always wanted.

We assure you of two things: first every brush is a high grade one, and second, it will be a long time before you'll have a similar opportunity because brushes are going up.

Any brush in the lot \$2.47.

KEEP YOUR KODAK BUSY

Do you keep your Kodak busy?

Have you ever stopped to think what priceless treasures today's pictures will be 20 years from now?

Kodak your pictures, your auto trips and week ends and family gatherings.

Kodak the children and your brothers and sisters and uncles and aunts. Kodak your home inside and out.

You'll never regret it if you preserve your pictures in albums and date them.

A SPLENDID TALCUM.

If you are satisfied to use an ordinary Talcum you'll not be interested in reading this.

On the other hand, if you enjoy the best, in the way of Talcum, you'll find Vergo Violet Talcum more satisfactory than any you have ever used.

It costs 25¢ a can, but the cans are large and the quality wonderfully fine.

FRIDAY SPECIALS

IF ANYONE SHOULD BE SERIOUSLY SICK

Sickness is not a very pleasant thing to anticipate, but when it does come the very best of everything is none too good.

Forty years in the drug business in this city has taught us not only the requirements of the physicians, nurses and hospitals of our community, but where to buy.

Ice caps, bed and douche pans, rubber sheeting, surgical dressings, lint gauze and heavy bandages, medicine tubes and glasses are to be found here, not only in a good variety, but of the quality demanded by the medical profession.

GREASE SPOTS KNOCKED OUT

Of course you never get any spots on YOUR clothes, but you MIGHT know someone who does, in which case you should tell them about "Klenzol".

"Klenzol" is a dissolver of spots that beats gasoline or any other kind of a cleaner all to pieces.

There's something almost magical about this preparation because it is so effective and yet it doesn't hurt the delicate fabric.

The professional cleaners use "Klenzol" and charge you a dollar for a job you could do in half an hour with the same cleanser.

WHERE DO WE GO FROM HERE?

HERE IS CURE FOR FLAT FEET

Owing to the number of otherwise splendid applicants rejected from the United States Marine Corps for flat feet, Marine Corps examining physicians have issued the following simple exercises and pointers, which if followed, they say, will remedy that ailment:

During exercises at all times turn the toes in.

Walk with toe of each foot pointing to the front, in straight line, if possible. Stand with toes turned in; raise body on toes, slowly, as high as possible.

When sitting, cross the legs, the feet always resting on the outer sides. The wearing of broad toe shoes with the metal "arch supporter" absolutely abandoned, also is advocated.

BANK FIGURES IN DIVORCE SUITS

SAN FRANCISCO, Oct. 18. — The Bank of Italy has been made the co-defendant in two divorce actions filed in the Superior Court here and petitions for restraining orders against the removal of community property from the bank were made by both plaintiffs. In the first, Nellie G. Orr asks for an interlocutory decree and alimony of \$200 a month from Louis H. Orr, and pending the settlement of the suit that he not be permitted to draw \$40,000 on deposit in the bank or dispose of real estate on Seventeenth avenue. Mrs. Orr alleges habitual intemperance. They were married in San Francisco September 2, 1915. The second petition was filed by Walter Howard against May M. Howard and stated in his petition that his wife had been cruel to him and that when he married her April 2, 1915, in Lake county, Oregon, he had \$15,000 and that his wife had sought to pauperize him, obtaining possession of all his money, and now had \$4000 in a safety vault in the Bank of Italy in addition to two valuable promissory notes that belong to him. He also asks the custody of a girl baby, 17 months old.

HE GAINS WEIGHT

Alleging in his testimony that he gained fifteen pounds after his wife left him, Herbert W. Ross was today given a divorce from Gladys O. Ross, by Judge Waste. The Rosses lived at 814 Pacific avenue, Piedmont. After their marriage in 1915, they went to Peru where Ross was employed as a smelter superintendent, with 900 men in his employ. The allegation was desertion. A property settlement was made out of court, by which the defendant was given \$6000 worth of household effects.

NO MORE MEALS AT WOODYARD; FUNDS ARE LOW

No longer is the Oakland public woodyard a haven for the hungry. It continues to shelter unfortunates during the night hours and maintains its employment bureau, but, because of lacking funds, closed up its kitchen, discharged the cook and left a void in the stomachs of several score men. The woodyard's appropriation in the new city budget did not provide money for food. According to W. S. Goodrich, superintendent, cash on hand at the end of September amounted to \$15.45. Total receipts amounted to \$414.40, while total expenditures totaled \$398.95. The number of meals served during the month was 332; the number of lodgings furnished, 1201; the number of men cared for, 242, and the number of temporary jobs found, 79.

WIFE ACCUSER

Superior Judge Joseph Korford has issued an order for Stanley Hitchcock to appear and show cause why he has not provided for his wife and two children. The order grew out of the second divorce complaint filed yesterday by Mrs. Muriel H. Hitchcock, the former complaint having been dismissed by her in May on her husband's promise to amend his ways.

Railroad Men

These men know from experience that Sloan's Liniment will take the stiffness out of joints and the soreness out of muscles. And it's so convenient! No rubbing required. It quickly penetrates and brings relief. Easy to apply and cleaner than musky plasters or ointments.

Always have a bottle in the house for rheumatic aches, lumbago, sprains and strains.

Generous sized bottles at all drug-gists, 25c, 50c, \$1.00.

Sloan's Liniment KILLS PAIN

79c

ALL BATHING SUITS ONE-HALF FRIDAY—All caps one-half

All sizes for women and children.

Think of sheets!

Size 81x90—without a seam—bleached white as snow—3 inch hem. (Only two to a customer.)

95c

On every 10c spent here you get an 2 1/2¢ Stamp as a discount for cash.

A Tooth Brush That Will Hold Its Bristles 25c

A tooth brush that holds its bristles is the one that gives satisfaction. To provide such a brush to sell at 25c is a real achievement in merchandising. We have accomplished this by importing brushes direct from France. You may select from various shapes and sizes. The handles are made from selected bone; the bristles are high-grade and pure white.

Red Feather Talcum Powder 15c

Women prefer it for general toilet use; men like it for after-shaving; the baby enjoys it because it is soft and soothing. Popular odors. A generous size can for 15c. We have other 15c Tal-cums, too—

Mennen's Ponds' Babcock's Colgate's William's Lazzelle's

Red Feather Tooth Paste 25c

Has all the necessary virtues—hardens the gums, whitens the teeth, removes tartar, neutralizes the acid conditions of the mouth, and checks tooth decay.

Red Feather Tooth Powder contains the same elements in another form—the price is the same. Other Popular Dentifrices: Colgate's Tooth Powder, 15c Dr. Lyon's Tooth Powder, 20c Revelation Tooth Powder, 25c Sapo-nol Tooth Powder, 25c

Don't Experiment With Cold Creams

There is no necessity for it. You can always get the old reliable, time-tried favorite—The Owl Theatrical Cold Cream. After exposure to driving winds, burning sun, or dusty roads, this famous preparation should be used instead of soap and water. It clears the dust-filled pores, prevents that dreaded roughness, and keeps the skin soft and fresh. A full pound for 60c. Sent postpaid anywhere in the United States.

This or This 14c

Friday and Saturday Only

A very unusual and important week-end special. Your choice of two popular lotions at the same bargain price—

The Owl Witch Hazel Cream

The Owl Benzoin Cream

14c

The Witch Hazel Cream is a lotion that is favored by men for after shaving use. It is thoroughly antiseptic and keeps the skin smooth and soft.

The Benzoin Cream is a popular preparation for soothing rough, chapped skin and removing the effects of sunburn. It produces that soft, velvety feeling. Choice Friday and Saturday, 14c bottle.

Ameroil For Constipation

Ameroil is pure paraffine oil, refined to the highest possible degree. It has no medicinal value, is not absorbed into the system. Ameroil is a soothing lubricant—nothing more. A pint bottle for 65c.

Red Feather Olive Oil Soap 25c So good that it can't be made better. Ideal for the baby's tender skin.

The Owl Drug Co.

OAKLAND STORES: Corner 13th and Broadway R. S. MILLER, Manager Corner 14th and Washington H. C. HEFFREN, Manager PHONE OAKLAND 500

"Owl"

FacTotals

The Manufacturing Division of The Owl Drug Co. provides the Chain of 25 Owl Stores with 130 preparations. The sale of some of the products will give you an idea of the capacity of this modern plant. For instance:

The sale of Ameroil will reach 100,000 bottles this year. This year it will require 60,000 tins (full-pound) of The Owl Theatrical Cold Cream to meet the ever-increasing demand. Captain John Orderly's are now selling at the rate of 150,000 boxes a year. 40,000 bottles of Owl Corn Paint are used every year. The annual sale of Lesley's Dental Cream has reached 62,000 tubes.

Wonderful Hair Brushes at \$1.00

We are maintaining our usual high standard of quality. All of our \$1.00 Hair Brushes have REAL EBONY (black or natural) or coco bolo backs. The bristle quality makes them give long, satisfactory service. Good variety—soft or stiff, long or short. You simply can't get better brushes for \$1.

Shampoo Brushes 50c Made for the purpose. The bristles are clustered—they get through the hair to the scalp. The backs are non-warping hardwood.

Grained Ivory Nail Buffers, \$1.00

The exact buffer is illustrated. The best grained ivory—you can be sure of good service. Note that the case is included. The price is very important—you can not duplicate the value.

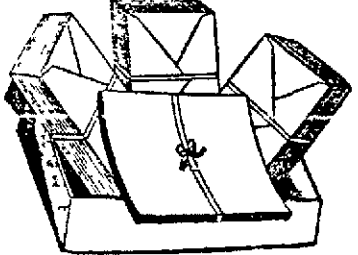

Flexible Nail Files 25c

At this popular price we offer a great variety of shapes and sizes. Made from the best quality flexible steel. You can't afford to be without one.

Fine Stationery 29c Box

One of the most popular lines in our big stock—the "Patroness" Linen Lawn. The name reflects the daintiness and character of the paper. Each box contains 24 sheets of paper and 24 envelopes. Popular colors—buff, pink, blue—and white, of course.

Shoe Dusters 15c

A polishing Mitt that folds compactly. Lined with wool fleece. Slips over the hand and is used like a brush. Puts the finish on a shine.

Sufferers

Pyramid Pile Treatment gives relief from itching, bleeding or protruding piles, hemorrhoids and such rectal troubles, in the privacy of your own home. One box at all druggists. A single box often cures. Take no substitute. Free sample for trial with booklet mailed free in plain wrapper, if you send us coupon below.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the inner pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, salivary complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.—Advertisement.

USE ORRINE; DRINK HABIT GOES

Don't wait for the drink habit to get too strong a hold upon your husband, son, or father, for it can be broken up quickly if Orrine is given him. This scientific treatment can be given in the home secretly and without loss of time from work.

You have nothing to risk and everything to gain, as Orrine is sold under this guarantee. If, after a trial, you fail to get any benefit from its use, your money will be refunded.

Orrine is prepared in two forms: No. 1, secret treatment; Orrine No. 2, the voluntary treatment. Costs only \$1.00 a box. Ask us for booklet. Oggood Bros., 1214 and Washington and 7th and Broadway.—Advertisement.

Bookbinding at The TRIBUNE Office.

HIT KAISER OUT OF BOX, SAYS BILLY

Billy Sunday, the world's greatest evangelist, will deliver one of his smashing, straight-from-the-shoulder talks about the war and its relation to human civilization and Christianity on Monday afternoon at 2:15 in the arena of the Oakland Municipal Auditorium. "For the salvation of our souls and the advancement of the Kingdom of God on earth, it's up to us to hit the Kaiser out of the box and put over three home runs in the ninth inning," said Billy in one of his recent addresses, and that is the kind of a talk that he will give to Oakland citizens. His remarks will be plain, unvarnished and forcible reasons why all Americans should give their last penny and their last drop of blood for the cause of world democracy.

THE VICE-PRESIDENTS.
 A large number of prominent citizens of the community will serve as vice-presidents of the meeting. Among those who have consented to act are:

CITY GETS \$1314

Return was made to the city of Oakland today of \$1314 from Alameda county, this sum being the total of fines and forfeitures collected between January 1 and September 1 for infractions of the State Vehicle Act.

The money is collected through the local police courts and justice courts and turned over to the county. Later an apportionment of these funds is made to each city contributing, on the basis of population.

The city must set this money aside in a special fund to be used exclusively to purchase material for street and road improvement on interurban thoroughfares.

BURGLAR RAIDS HOME

When Robert C. Wong and his wife returned to their home at 284 Ninth street at an early hour they discovered that during their absence the house had been entered by a burglar and looted of money and jewelry to the value of \$215.

SOME BULLDOG, SOME COSTUME, SOME SCARE!

A bulldog, nattyly attired in a miniature red sweater and pink silk pajamas, walked into the Hotel Oakland barroom yesterday. A stout man sitting at a table looked, turned ashen and hurried out to sign the pledge. Several others stared, and hurriedly asked the bartender if he saw the same thing. One of them asked Bert Perrin, local civil engineer and Perrin, with language that scorched the ceiling, picked up the dog and fled.

Now, however, it's all clear, and the fat man who signed the pledge wasted his effort. There really was a dog in sweater and pajamas—he wasn't seeing things at all. The dog belonged to Perrin.

Mrs. Perrin fixed the "togs" for Bruno several days ago—and intended them for house wear only—not to be seen on the street. But Bruno got loose and followed his master down town and to the hotel. And of course he didn't take off his costume first.

Perrin took the costume off and hid it. Now both he and the dog feel better. So does the fat man.

EMERGENCY CLASS

The third emergency class in shorthand and typewriting is now open for enrollment at the Technical Evening High school. The class will meet every afternoon from 2:45 to 5 p. m. This in record time the enrolling now will be able to fill positions next year. Two other classes have been organized and are progressing rapidly. Women who finish these classes will be able to fill positions left vacant by men who have gone to war.

Many other classes have been recently organized and there are several vacancies for students who wish to learn and better themselves.

ASKS DIVORCE

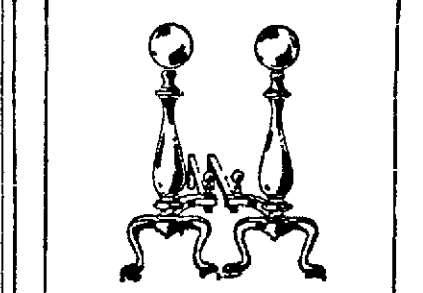

Myrtle C. Marden alleges cruelty in an action for divorce from Ree B. Marden, and Edward L. Moriarty complains that his wife, Hazel W. has for two years abandoned and deserted him. He wants custody of the two children.

Have You Been in Our Gift Room Lately?

What Women Of Club Life Are Doing

By Edna B. Kinard

That Valiant group of women in San Lorenzo who have been lending their energies toward a practical war service since the organization of their local unit of the Council of National Defense, after a brief respite, are planning to their sister patriots. They went logically back to the axiom that children were the best persuaders. They won the co-operation of the school board and the teachers. Among themselves they formed classes in canning, preserving, drying, making of war breads, the tasty substituting of other foodstuffs for meat. Recipes, when carefully tried out and found to be good, were sent to the various classrooms, where they were placed upon the blackboards as writing lessons. When the child left the schoolhouse it was instructed to take the exercise home to its mother with an accompanying sample provided by the women of the Council of Defense.

Alameda county woman's committee, Council of National and State Defense, of which Mrs. Frederick C. Turner is chairman, has decided to hold the first executive board meeting of each month in Oakland, but on the occasion of the second session to go to the outlying units that the war workers may come in closer touch with the progress of the county and particularly those matters to which the women are asked to give their efforts. The San Lorenzo unit is asking the board to share its hospitality at an all-day meeting on Wednesday, October 24, at the residence of Mrs. L. M. Madley, chairman of the local body. Mrs. Turner, who will preside at the important conference, will call the meeting at half past ten. At the noon hour the hostesses will provide a luncheon of a conservation nature, observing in every detail the instructions of the food administration and providing such a menu as they have learned to assemble in their home economic classes. Mrs. Madley, who has completed the course which was offered in the University of California, has been the leader in this line of work.

The out-of-town board meeting was announced for the evening of Wednesday, October 24, but on account of the changes in the plans of the food pledge drive, postponing it by a week, the board brought forward its session several days.

One hundred and forty-two little Belgian refugees had just two dolls to divide among them. And childhood is the same the world over when it comes to dolls. The Christmas season is the time when the little ones are most particular about their dolls' own time. The busy group of half a hundred women who have gathered in the Mme. de Memphine circle for Belgian Relief have laid aside a part of their heavier work for a little while, believing that a visit to the little ones would be as important as dividing with the coats and shoes of their own little ones. So the Christmas boxes are being packed, a goodly number of comely California dolls going along with the warm garments, the hats and footwear which each week is starting forth from San Francisco harbor for the Yule season of the girls and boys, who orphaned, are finding refuge in unoccupied Belgium and Northern France.

For the Doll Fund the women are claiming the public's presence at a vaudeville and dance on the evening of Wednesday, November 7, at Star King hall. It is to be a notable program, laughter-making and bringing happiness because the dimes and quarters and dollars are to be used to buy the mite creatures the tiny trains and the candy which is to send across the waters the message of gladness to the little ones who are terror-stricken. The Mme. de Memphine circle, believing that the Oakland Federation of Mothers' Clubs has planned these informal talks by experts throughout the city, the free courses to cover a wide range of subjects. Another series will soon be given on the subject of "The Parent as Teacher." "Famous Mothers and Mothers of Famous Men" will be the title of a third group of talks with university men as speakers.

The Parent-Teacher Association of the Fremont school is giving a neighborhood dance tomorrow evening in the gymnasium of the school building, the informal being one in a series of affairs which are planned through the winter.

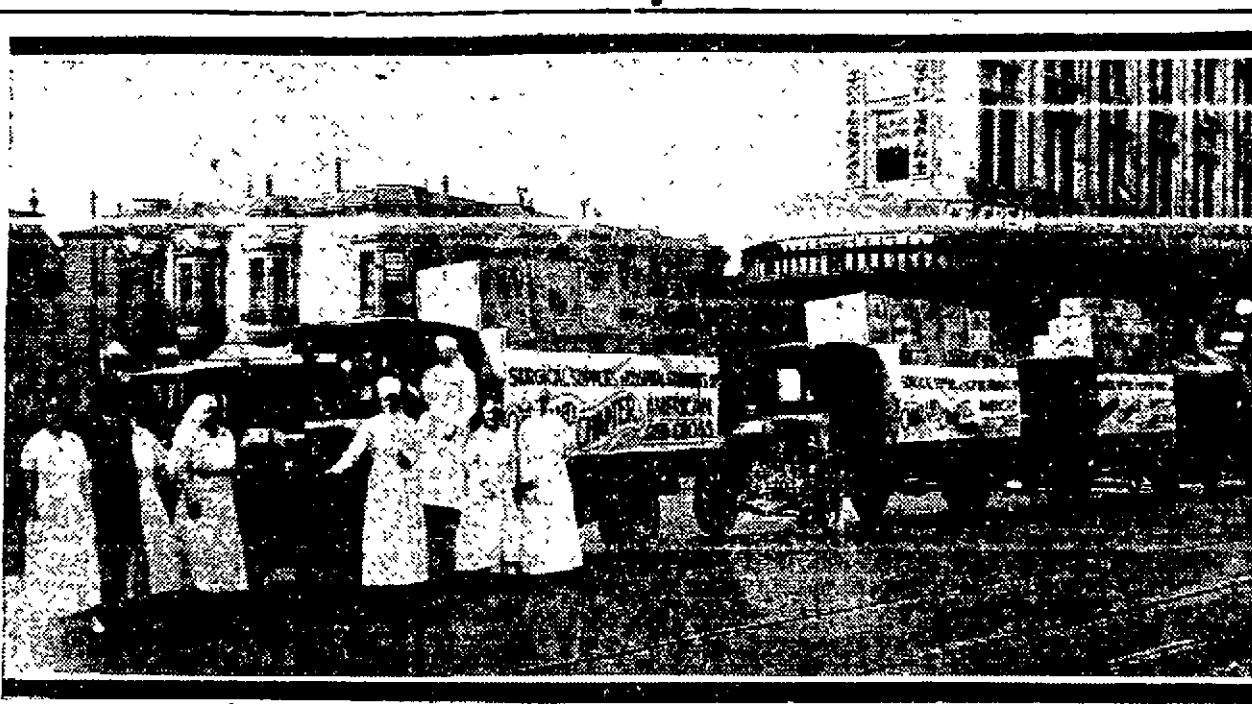

An adjournment of the regular meeting tomorrow has been announced by the Mothers' Club of the Walter T. Frick school, the members attending in a body the reception which will be given in the Prescott school day nursery by the School Women's Club. Next month the Parent-Teacher Association will arrange a shower in compliment to the newly established institution for the little children of West Oakland whose mothers are compelled to enter the commercial world.

blanks and further information may be obtained from the secretary of the Twelfth Civil Service District, room 241, Postoffice building, San Francisco, Cal.

Every bit of dandruff disappears after one application of Dandruff Rub. Rubbed well into the scalp with the finger tips. Get a small bottle of Dandruff Rub at any drug store and save your hair. After a few applications you can't find a particle of dandruff any falling hair, and the scalp will never itch. Advertisement.

CLERKS WANTED. Postoffice clerks and carrier's examination for men only will be held on October 22. The number of applicants for this examination has been very limited and all those qualified are urged to apply. Application

Surgical Supplies Are Sent to Front Weekly From Oakland

Parading Trucks loaded with Red Cross supplies on way from Oakland headquarters to make life easier for men fighting for democracy in France, and those who are training in this country to join Pershing's army.

THE GROTTO SPECTRE

By Anna Katherine Green

Another of the "Problems of Violet Strange" now appearing on this page—a Novel-a-Week.

Continued from Yesterday.

"How then did she get there, and by whose agency? Was she living when she went, or was she already dead? A year had passed since that delicate shoe had borne her from the boat into these dim recesses; but it might have been only a day, so vividly did I live over in this moment of awful enlightenment all the events of the hour in which we sat there playing for the possession of our child. Now I recalled that as I made my way along those rocks, a sound had struck my ear from where some stunted bushes made a shadow in the moonlight. The wind might have caused it or some small night creature hustling away at my approach; and I was so tired that I must at the time have attributed it. But now, with brain fired by suspicion, it seemed more like the quick intake of a human breath. Some one had been lying there in wait, listening at the one loophole in the rocks where it was possible to hear what was said and done in the heart of the grotto. But who? and for what purpose this listening; and to what end did it lead?"

"Though I no longer loved even the memory of my wife, I felt my hair lift as I asked myself these questions. There seemed to be but one logical answer to the last, and it was this. A struggle followed by death. The shoe fallen from her foot, the clothes torn and soiled, the dimly blackened wrists which were now white when she dealt the cards—these seemed to point to such a conclusion. She may have died from heart failure, but a struggle had preceded her death, during which some man's strong fingers had been locked about her wrists. And again the question rose, Whose?"

To linger there—to look—almost tore my soul from my body. I listened and looked and looked and this is what I found by way of reward.

"Behind the projecting ledge of stone from which a tattered rug still hung, I came upon two mounds driven a few feet apart into the fissure of the rock. I had seen the mounds many times long before for a certain gymnastic attachment much in vogue at the time, and on looking close, I discovered hanging from them the rope-ends by which I was wont to pull myself about. So far from being nothing to arouse any but innocent reminiscences, when I heard the dog's low moan and saw him leap at the curled-up ends, and nose them with an eager look my way, I remembered the dark marks circling the wrists; and the world went black before me.

"When consciousness returned—when I could once more move and see and think, I noted another fact. Cards were strewn about the floor, face up and in a fixed order as if laid in a mocking mood by the carefully spread-out cards, and near the ominous half-circle they made, a cushion from the lounge, stained horribly with what I then thought to be blood, but which I afterwards found to be wine-tinged spume, in the hopes that the coldly spread-out cards, and murder in the smothering pillow. The vengeance of one who had watched her corroding influence eat the life out of my honor and whose love for my little Roger was such that any deed which caused his continued presence in the home appeared not only warrantable but obligatory. Alas! I knew of but one person in the whole world who could cherish feeling to this extent or possess sufficient power to carry her lifeless body back to the house and lay it in her bed and give no sign of the abominable act from that day on to this.

"Miss Strange, there are men who have a peculiar conception of duty. My father—"

"You need not go on." How gently, how tenderly our Violet spoke. "I understand your trouble."

"My father was in the hall the day I came staggering in from my visit to the grotto. He was resting, but our eyes met and from that hour I have seen death in his countenance and he has seen it in mine, like two opponents, each struck to the heart, who stand facing each other with simulated smiles till they are ready to deliver the death blow. My father has aged much since that day five weeks ago, and lay it in her bed and give no sign of the abominable act from that day on to this.

Latest Shipment Puts 15 More Tons to City's Credit

Regular shipments of surgical supplies for use by United States fighting forces are taking place every week now, Oakland's Chapter of the American Red Cross sending forth a steadily-growing supply for each new seven days that pass. At present the weekly record is fifteen cases, but Oakland women are working at a rapid pace to outdo their efforts of the past.

Fifteen tons of surgical supplies for the Red Cross work here and in Europe left here Friday. It was a gala day for those women who have been working steadily during the war period, and Friday's shipment to the San Francisco Red Cross warehouse was the "saved-up" supply of several months' labor. The shipment that left here Friday represents the steady work of 3000 patriotic women, before whose eyes was ever the shining picture of mercy and devotion.

A monetary value of \$10,000 has been placed on the record shipment, but the real value to America's nursing forces cannot be measured in terms of dollars and cents. Rather in terms of the invaluable lives—peace and health—of our fighting men, and the gentle side of war—may the work of loyal American women in this city be estimated. Five Denby trucks were necessary to remove Friday's shipment.

Butter Scotch Cookies—Four cups brown sugar, four eggs, one cup shortening, one level tablespoon cream, one level tablespoon soda, one teaspoon vanilla, seven or eight cups flour, mix thoroughly, put into two loaves, let stand overnight, slice thin and bake in the morning. This may seem expensive, but makes between eighty and ninety cookies.

THINGS WITHOUT KNOWING
To Clean Tops of Stoves nothing is better than a stick about a foot long and an inch or two inches wide with a piece of emery cloth run up one side and down the other and tacked in place. It is just rough enough to take off the grease and dirt and is easily washed after it is used.

To Set Colors in Wash Goods—Soak goods two or three hours in painful of water to which two tablespoons turpentine have been added. Salt may be used instead of turpentine. If colors of cotton goods run in washing, rinse several times in water in which Epsom salts have been dissolved (one level teaspoon salts to each gallon water).

When Sewing Snap Fasteners or Hooks and eyes on anything, try sewing hooks, or raised part of fasteners, on under side and see how nice things will look after ironing.

Bread Cake—One thin bread sponge, three-fourths cup sugar, one-fourth cup butter, one cup flour, one level teaspoon soda, one-fourth grated nutmeg, one egg, one-half cup seeded raisins, one-half cup sugar together, add sponge and beat well. Stir soda, raisins and nutmeg into flour and add to batter. Beat egg light and add last. To make doughnuts, buns or rusks use English currants instead of raisins. Bake the cake once. Let doughnuts, buns and rusks rise.

Beef and Macaroni—One cup dried beef cut fine, three cups cooked macaroni. Put these into baking dish in layers and pour this sauce over them: Two and one-half cups butter (or butter substitute), three level tablespoons flour and one-half cup bread crumbs. Over this put one-half cup bread crumbs. Bake until crumbs are brown.

Sweet Potato Waffles—To one cup of mashed (boiled) sweet potatoes add two level tablespoons each of butter and sugar, half teaspoon salt and half cup milk. Mix well together and add a well-beaten egg. Press through a sieve and bake in hot waffle iron or griddle pan. Serve with or without whipped cream flavored with two tablespoons of honey added before whipping.

Butter Scotch Cookies—Four cups brown sugar, four eggs, one cup shortening, one level tablespoon cream, one level tablespoon soda, one teaspoon vanilla, seven or eight cups flour, mix thoroughly, put into two loaves, let stand overnight, slice thin and bake in the morning. This may seem expensive, but makes between eighty and ninety cookies.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and sorcery, just an application of two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Weyth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural hair, thickens, turns gray, streaked and looks dry, wispy and sorcery, just an application of two of Sage and Sulphur enhances its appearance a hundred-fold.

Everybody uses "Weyth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time, by morning the color has disappeared, and after another application it becomes a rich, dark and glossy, lustrous and abundant. NUXATED IRON

U X A T E D I R O N

You Can Tell the Difference with Nuxated Iron in the Blood—Beautiful, healthy, glowing skin, clear eyes, bright hair, strong muscles, all these are the result of Nuxated Iron in the blood.

Dr. Ferdinand King, New York Physician and Medical Author, tells physicians that they should prescribe more iron—Nuxated Iron—for the treatment of all cases of weakness, nervousness, and general debility. It is the greatest tonic to the blood strength and vitality of the modern American woman. "Sound medicine" is the use of medicine in which way nature's law is followed. The stomach and the bowels must be kept in good condition. Nuxated Iron will increase the strength and endurance of weak, nervous, run-down folk. It is the best tonic in many instances. Dispensed by all druggists.

Oakland People Should Eat Pie Daily

Pie is wholesome, combining both fruit and grain. Those who have trouble digesting pie should take ONE SPOONFUL simple buckwheat bark, glycerine, etc., as mixed in Adler-Like. This flushes the ENTIRE bowel tract, removes foul matter which poisoned your stomach for months and relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. Leaves stomach in condition to digest ANYTHING. Osgood Brothers, Druggists.—Advertisement.

Very Effective Method for Banishing Hairs

(Modes of Today)

At very little cost any woman can rid her face of hairy growths if she will use the delicate treatment. This is made by mixing some water with a little powdered delatone. This paste is spread upon the hairy surface for two or three minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No harm results from this treatment, but care should be used to buy real delatone.—Advertisement.

All Fat People Should Know This

The world owes a debt of gratitude to the author of the famous Marmolade Prescription, and is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmolade Prescription Tablets can now be obtained at all drug stores, or by writing direct to Marmolade Co., 841 Broadway, New York City, N. Y., and their reasonable price (75 cents per box) leaves no excuse for dieting or violent exercise for the reduction of the overweight body to normal proportions.—Advertisement.

To Stop a Persistent, Hacking Cough

The best remedy is one you can easily make at home. Cheap, but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking-on-bronchial cough year after year, disturbing their sleep and making life miserable. It is so needless—there's an old home-remedy that will end such a cough easily and quickly.

Every other year a druggist "2 1/2 ounces of Pinex" (a concentrated extract of pine) in a pint bottle and fill the bottle with granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether. Just a coughing fit that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes and relieves the chest. It is a sure remedy. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, whooping cough and bronchial asthma, there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by the highest medical authorities for the treatment of all cases of persistent coughing and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

A New Face Without Surgical Skin Peeling

The surgical operation of face peeling is too radical, too severe. There's a better way of removing offensive complexion and one that is entirely safe and national. Ordinary medical wax causes the devalued skin to come off, but gradually and gently. Unlike the surgical process, the skin is not forcibly taken off in big pieces all at once, but a most visible flaky particles are absorbed by the wax, and about two weeks are required to complete the transformation. There's no pain, no discomfort. Nature renews complexion the same way, shedding its cutaneous scales day by day. But deficient circulation, other abnormal condition, may interfere with the shedding—a "bad complexion" results. These marks are signs of Nature's hastening the removal of the old, discolored or discolored skin. This only the live, young, healthy-skinned skin is in evidence. So, if you have a "bad complexion," a mottled wax produces the rejuvenated beauty of ever-renewing youth. The wax is in use, it is light, it is cold, cream, and washed off in the morning. You can procure it at any druggist's, an ounce is sufficient.—Advertisement.

JURY TRIALS ARE ASKED BY SIX

Demands for jury trials were made in police court today by six negroes who were arrested last night in a raid on an alleged crap game by Corporal Thomas O'Neill at the Ranier Social Club, 468 Eighth street. The cases were continued by Justice Aaron Turner until tomorrow to be set for trial. That it is the purpose of the alleged gamblers in taking this course to block the demands of the police courts and prevent drastic measures being taken against them, is the opinion of Chief of Police Nedderman, who said that this is not the first evidence of such strategy to be manifested since the crusade against gambling interests commenced. "They hope in this manner to discourage the police from actively against them," said Chief Nedderman. "This has been attempted before but despite their efforts convictions have been obtained and jail sentences imposed. We will ask for jail sentences in all cases where defendants are convicted by juries." Corporal O'Neill entered the club rooms single handed and gathered in the gamekeeper and five players, taking a quantity of gambling paraphernalia and \$60 in the bank roll, to be used as evidence. Those arrested are Ben Bryson, alleged gamekeeper, who was released promptly on \$200 bail; Percy Richardson, who was released on \$100 bail, and Roy Rodgers, Roy Alexander, Leonard Jackson and William H. McKnight, all of whom remained in jail until the cases were called in court today. The club was formerly known as the Idle Hour Social Club, which lost

BURNED HIM UP A BIT, BUT IT CURED HIS COLD

Herman Stultz, master of sanitary ceremonies at the county hospital, goes fast about his duty so fast, indeed, that today he was discovered on fire. All unaware of the threatening cremation, he was going about his business when his danger was discovered by others. The front of his shirt was blazing merrily, but he confused the smoke with that issuing from the bowl of his prize pipe. He just thought it was an especially good smoke he was having and went wheezily about his work. It was found that his chest was badly blistered, but optimistically he vowed it was good for his cold.

TO QUIT FIRM

J. L. Harkinson is suing Joseph Boscacci, co-partner in the American Brass and Iron Foundry, for an accounting of the business and for a dissolution and sale, alleging inability of the partners to conduct the business with profit. Harkinson says in the complaint that he was induced to invest in the business on account of the claims of Boscacci that he had secured a large amount of Eastern orders, which did not materialize.

LOAN IS URGED

A very effective window display for the Liberty Loan subscription is at the Wiley B. Allen Company's store at 1209 Washington street. A patriotic home is represented, with figures to represent the members of the family. Well worded cards carry the message the display is intended to convey.

its liquor license last April by action of the city council.

UNION TO ACT ON S. P. DISPUTE

The discharge of the officers and organizers of the new union formed this week by shop mechanics, "handy men" and other miscellaneous workers about the Southern Pacific yards, has precipitated a dispute between the workers and the company that will result in action by the union Friday, when definite demands for better wages, recognition of the union and union hours, will be made. In the meantime application has been made to the American Federation of Labor for a charter, and the men expect, they will have the backing of all organized labor bodies should they vote to strike. The workers completed organization this week under the direction of V. E. Castro, American Federation of Labor organizer. John Munjar was elected president, R. Cummings, vice president, R. Sampson recording secretary and R. Smith secretary-treasurer. The organization included not only men but women employed as car cleaners, a recent innovation at the yards.

Immediately on the formation of the union the president, vice-president, two secretaries, and with A. D. Howard, Thomas Duffy, Frank J. Rose and Miss Millie McEnerney, were dismissed, according to word that reached the Central Labor Council today. The Central Labor Council is now investigating, and in the meantime a meeting has been scheduled to formulate demands. Among these will probably be a demand for reinstatement of the union members, if they were dismissed solely for the reason of their membership in the body.

Officers of the Central Labor Council would give no statement as to the details of the demands to be made, and Organizer Castro also declined to discuss the matter until he has investigated. "We may be able to settle the matter peacefully," he said. "I certainly will do all in my power to prevent a strike."

WHAT IS DOING TONIGHT

California Land Show, Eighth and Market streets, S. F.
Labor Club meets, California hall, U. C.
Education Club, Acacia Fraternity, Berkeley, 8.

—The popular heavy round-thread, 36-inch natural color Linen, for dresses, waists and skirts—wears so well. Special, Friday, yard **29c**

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which is poisonous." "A medicine which relieves pain and produces sleep, but which is poisonous." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. **CASORIA DOES NOT CONTAIN NARCOTICS**, if it bears the signature of Chas. H. Fletcher. Genuine Casoria always bears the signature of *Chas. H. Fletcher*.

HAARLEM OIL CAPSULES IF YOUR BACK ACHES

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged-out" unrefreshed feeling when you get up in the morning? Dizzy spells? Blurred vision? Bad taste in the mouth, backache, pain or soreness in the joints and abdomen? Severe distress when urinating, bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have invaded your kidneys. You should use **GOLD MEDAL Haarlem Oil Capsules** immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain. Do not delay a minute. Go to your druggist and insist on his supplying you with a box of **GOLD MEDAL Haarlem Oil Capsules**. In 24 hours you will feel renewed health and vigor. After you have cured yourself, continue to take one or two capsules each day so as to keep the danger of future attacks. Money refunded if they do not help you. Ask for the original imported **GOLD MEDAL** brand, and thus be sure of getting the genuine. —Advertisement.

WILL GIVE FARCE

"The Typewriter Lady," a farce comedy, will hold the boards at the Fruitvale Pythian Castle tonight, the occasion being a benefit for the enlisted members of Fruitvale Camp 421, Woodmen of the World. The cast for the play was selected from the Woodmen Camp and Circle 535, Woodmen of Woodcraft, J. C. Holland, clerk of the Board of Supervisors, and Mrs. Ruth Schaffner impersonate the leads. The others of the cast are: Mrs. Emma Hunt, Mrs. Rose Smith, Mrs. Matilda Blake, John Wainman and Percy Ward. After the presentation of the play the evening will be given over to dancing and whist. There will be a talk on Liberty Bonds, and Mrs. Mollie Dodson will give a monologue.

\$7,000,000 TUNNEL

DENVER, Oct. 18.—Construction of a \$7,000,000 tunnel under James Peak, a dream of years of railroad construction engineers—probably will be realized in the near future, if plans to secure investment of \$5,000,000 of eastern capital, negotiations for which are now under way in New York, are consummated. The tunnel will shorten by 200 miles the present route of the Denver & Salt Lake railroad—the Moffat road. Two millions of capital toward the seven millions required to construct the tunnel, rehabilitate the road and remove the receivership under which it is now being operated and place it on a paying basis is assured by Colorado bondholders, provided the required additional five millions is secured.

"Spanish Doubloons"

When the manuscript of "Spanish Doubloons" was brought in, the Editor shook his head. "Old Stuff," he said. "It can't be done. Camilla Kenyon is too late. Stevenson spoiled the treasure-hunting plot long ago." But, being conscientious, he began to read, kept on reading and read clear through the lunch hour. It will hit you in the same way. "Spanish Doubloons" really is the best of its kind since "Treasure Island." In the November Sunset.

The Car Strike

San Francisco has popular city-owned electric cars, an unpopular privately owned car system and a millionaire mayor with political ambitions. Part of the private car system's platform men struck. The usual violence and bloodshed followed. Union labor, with many votes, wanted the strikers to win. What did the executive and judicial officers do? Did they enforce the law impartially or did they govern their actions with an eye on the Union-labor vote? Thinking men and women will take time to read "The Striker and Low Justice," by Walter V. Woehike, in the November Sunset.

"Life and Jack London"

—Rose Wilder Lane's vivid, intimate study of the most picturesque, the most tragic figure among the great writers of America, has attracted national attention. Don't miss the second installment in the November Sunset.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. They do the work without gripping, cramping or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

—Advertisement—

To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Farnum (double strength), and add to it 34 pint of not water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing becomes easy and the mucus dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial. Osmond Brothers.

Out of the Mouth of a Babe

Teacher—Johnny, do you know your A B C's?
Johnny (a first year pupil)—Yeth, ma'am, I tink so.

Teacher—All right, that's good; you may recite them.

F Y P—A B C means that a newspaper sells all the papers it says it does, honest.

Teacher—Very papa works for The TRIBUNE.

F Y P—Yeth, ma'am.

Rooms Wanted for Tribune Readers.

AGED MAN LOYAL

Emil Frick of Oakland, the oldest pensioner on the Southern Pacific's honor roll, has invested his savings in Liberty Bonds. Frick is 76 years old

and entered the railroad service on November 21, 1864. Frick is a Frenchman by birth. "My heart yearns to be over there," he says simply. "I would give my life willingly for France if it would avail, but I figure that America can

do more than I for France, and so I lend to America my savings."

The veteran was for years an engineer on the old Seventh street steam railroad in Oakland.

bright offering Willard Mack has written for her. William Doss offers a novel and a surprise. He is a clever ventriloquist who has other things besides ventriloquism to amuse his audiences. All the French vaudeville, the humor, the interest of the occasion by balancing glass bottles in an impossible manner and a few other things of the kind, Mack and Snyder, master athletes, make the audience gasp in amazement. Norwood and Hall further charm.

The wonderful pictures of the retreat of the Germans at the Battle of Arras are another drawing card.

"A MIX UP" IS MACDONOUGH PLAY.

Stella Mayhew has starred in various vehicles throughout the country. Her latest appearance on the coast was in the Hammerstein production of "High Jinks" but not until her engagement at the Macdonough theater in the Shubert farce "A Mix Up" commencing Monday.

Mayhew as a riotous lady, of laughter. When Stella Mayhew appeared for two weeks at the Alhambra in San Francisco last month, one of the dramatic critics said:

"To say that she had no rivals except in the possibility of May Irwin and Marie Dressler is hardly doing justice to Miss Mayhew. She has opened the eyes of the critical master of San Francisco to the fact that she is supreme as a fun-maker and an artist. It is not exaggeration to say that she is quite in a class by herself."

It was a clever thought of Miss Mayhew's managers to arrange for the "Garden of Glorious Girls" who give a miniature roof garden revue of an hour's duration, preceding the Shubert farce. Fifteen smart girls, artists, singers and dancers, headed by the Gardiner trio, and including such stars as Edith Allan, the Ferguson trio, the Washington quartet, Mildred Hilton, Nan Gray, Ruth Boyer, Grace Speyer, Emmy Wallace, Memory Grant and others appear in the Revue. "A Mix Up" will be the attraction throughout the week with matinees given on Wednesday, Saturday, and Sunday, at bargain prices.

PICTURE STAR IS PANTAGES HIT.

Octavia Handsworth, the celebrated movie star, continues to pack the houses at the Pantages, where she is offering her great vaudeville success, "Salvation Sue," a wonderful play of the frozen Klondike, based on one of her best films in the days when she was the leading woman of the Pantages forces. Miss Handsworth and an all-star cast offer the virile play as it must be ordered to make it a success—for perfect acting is necessary in the remarkable depiction of strong men and women that the author has provided.

Miss Handsworth is famed for her Lubin and Pathe films, but her work on the vaudeville stage shows her even better as a "real life" actress than on the screen.

A big all-star bill headed by "Little Miss Up to Date," accompanies the noted picture star. The offering is a scintillating musical comedy, full of color and life. The Four Roses, wonderful dancers, also have a charming bit of work on the program this week, and an exceptionally good chapter of "The Fighting Trail" adds to the interest of the bill.

Next week Manager Chas. Niemeyer promises another all-star bill.

"LOVE WATCHES" IS BISHOP OFFERING.

In Billie Burke's former starring vehicle, "Love Watches," the stock players at the Bishop have one of the most delightful comedies of the season. And only at this week the place loses none of the charm and attractiveness that made it one of the commanding successes of the season when presented by Miss American stage when played by her.

On Sunday afternoon next the Bishop play will offer the first Western presentation of "The Winning Quarrel," an adaptation of Harold Bell Wright's well known novel of that title.

MARGUERITE CLARK IN T. D. FILM.

A "Sub-Del" is a "Tapper." That is English for an engaging youngster of one year before. The debutante age—"coming out," you know. Such we learn from that surprising and intensely amusing farce, "Sub-Del," which packed all day long, the huge New & D. theater, yesterday, where it is being presented in an exclusive and limited engagement.

When she falls into the bath tub, comes tumbling out, wet and shivery, the audience hoots, but when she believes sweetheart came to life and presented himself at the school, they cried with gladness and satisfaction of this poor little girl who wanted to be a lady with flocks of ardent admirers.

A comedy of small interest, an educational reel and the latest of the fascinating Hearst-Pathe News, were also projected. The musical accompaniment, especially the orchestra, were excellent.

"INTOLERANCE" PROVES MAGNIFICENT KINEMA.

Like the great classics that have lived even to our own day can be compared to the success of "Intolerance," the greatest of all masterpieces, which is being shown at the Kinema this week, first because it has a message that speaks from all ages to all nations.

These things cause nations first to rise, civilizations to develop and then by this same token, carried too far to decay and at last topple. Griffith demonstrates the truth of this from the face of the world's greatest power, through the dark days when they murdered the man Christ, down to the present time, the moments of the St. Bartholomew's eve and even on down to our own very day of war babies, of strife and unrest.

FRENCH WAR FILMS ARE OFFERED.

Of timely importance are the official French war pictures, "In the Wake of the Hun," now being shown at the American theater. These pictures were photographed by the cinematographic division of the French army and show the heroism of the French in the face of the most awful destruction the world has ever known.

With the ravages on the Somme the Ode, the Aeneas, before then the spectators can see many of the most over-whelming scenes of the war. With the return of the French troops into Ribecourt, scenes in the picture show that only little children and old women were left in the zone, and all French women from 15 to 40 have been deported to Germany. Fast on the heels of the fleeing Huns, in scenes showing the plights of the German troops at St. Quentin, part of the Von Hindenburg line, the French pursue, maddened by headless and wanton atrocities.

NOVEL FILM IS SEEN AT FRANKLIN.

Is anything worth the taking chances for? Well maybe yes and maybe no. Does it seem fair to take chances when your honor or your home is at stake? Perhaps you may think in life is in fact, perhaps you may never have anything in jeopardy. Well, would you care to take chances. And so it was with this old southern colonel who had always lived in ease and his plantation, but the civil war brought an enormous expense on his head through the loss of the h.p., the taxes and the up keep of the large plantation which was not used enough to pay for itself.

Intelligence in courtship as well as in business is the theme of "Edgar's Courtship" in which Taylor Holmes takes the film world by storm, plying over such a strong thrust that he takes a place in the first rank of comedians and film stars.

9920 pages, 9925 to 9940 pages, 9945 to 9960 pages, 9965 to 9980 pages, 9985 to 10000 pages.

THURSDAY, OCTOBER 18, 1917.

REMOVE GRADE CROSSINGS.

Timely action has been taken by the Alameda county supervisors to force the elimination of grade crossings on the main automobile highways in this county. It is not likely that any serious objection will be offered to the proposed improvement at the hearing of the matter ordered by the State Railroad Commission, the first session of which is being held in Oakland today. Any differences that may exist between the county officials and the railroads cannot properly be other than questions as to who shall stand the cost of the work.

Such questions cannot be permitted to interfere with the immediate removal of the grade crossings and the substitutions of subway or elevated crossings. If the railway is ordered to perform the alteration at its own expense, the patrons of the road will pay for it ultimately under the rate schedules prescribed by the railroad commission; if the county undertakes the work, the taxpayers will stand the cost. Regardless of who keeps the accounts the cost will be charged to the public and the public wants the work done.

Even though the railroads did not have any prospect of being reimbursed for the expenditures in changing their crossing grades, they ought to consider it good economy to remove the certain danger to life and property that grade crossings constitute. They will be offset in time by the absence of damage suits and the gain in public respect.

The crossings, which the railroad commission is now considering are in the Altamont Pass and on both the Southern Pacific and Western Pacific railroads between Niles and San Jose. Grade crossings in other sections of the State should also be changed and county and State officials and the railroads should get together in a spirit of mutual desire to increase public safeguards and do it without unnecessary delay.

CONSERVE THE SOIL.

An agricultural paper, *Farm and Fireside*, says that results based upon analysis of cultivated and uncultivated soils show that the cultivated soils in the Middle West States have lost from 1200 to 1800 pounds of nitrogen and from 32,400 to 49,000 pounds of organic matter to the acre. "This means," says this journal, "that the cultivated soils have lost from one-fifth to two-fifths of their nitrogen and from nearly one-fourth to one-half of their organic matter. The cultivated soils have lost on the average more than one-third of their original stock of organic matter. The seriousness of the situation cannot be overestimated."

The state of the Middle West States is as deep as the soil on many sections of the Pacific Coast. Over great areas they do not average more than eighteen inches in depth, hence cultivation deprives them of a greater proportion of their organic matter than would the same cultivation of deeper soils. Much of the agricultural land of California is practically without bottom. Among the delta and Santa Clara adobe surface soils, for example, hard-pan or a clay bottom does not enter as a factor in connection with the productive life of the soil. In the Imperial valley, and some of the smaller valleys of central and northern California, where the cultivable area is made up of sedimentary deposits "hard-pan" has not even been discovered in drilling artesian wells.

But this fortunate condition does not mean that the farm land of California is free from the danger of exhaustion. The percentage content of nitrogen and other organic matter rapidly decreases with depth, and while the land will yield more continuous crops of the same product than many other sections of the country, its vitality is seriously affected by monotonous cultivation.

In Middle West and Central States, the situation is indeed serious, as *Farm and Fireside* points out. Despite scientific methods of cultivation, seeding and the rotation of crops, the acreage yield of such staples as corn, wheat, rye and oats is less than it was in the early decades of breaking the virgin soil and forest clearings. At the same time more labor is required in preparing and tilling the soil and in the various methods of harvesting than in the earlier period.

What has happened in the Middle West will hap-

pen in California in time and to a degree. Farmers and farm operators must consider their land as capital from which they should not make expenditures, but which is to be conserved by careful methods in cultivation and in changing the crops. Farmers are not ignorant of the requirements of their problem and a large portion of them already have adopted the proper policy, but they may yet learn much from the University farm advisors and through other mediums.

NAVAL LOSSES.

The loss of a torpedo boat destroyer of the American patrol flotilla in British waters is the second serious misfortune to be sustained by our naval forces in that area of the high seas which Germany has insolently and illegally called a "war zone." The other ship was damaged in a collision.

By good luck, and probably through proper handling of the destroyer struck by a submarine torpedo, only one sailor was killed and five wounded. So far as officially known, these were the first casualties among American military or naval forces in actual battle. Some have been murdered by airplanes in Red Cross hospitals and others injured in work behind the battle line in France, but the naval vessels have actually encountered the enemy, or rather come into contact with his methods of assassination.

Considering the amount of work performed by the American fleet in European waters and the number of ships employed in patrol duty and in chasing submarines, our losses have been small. They are an evidence of the efficiency of the destroyers in proceeding against the submarines or of the disposition of the undersea boats to avoid combat with the surface fighters wherever possible.

Remember that the result of the second Liberty Loan subscription will be made known to former German Ambassador "Sandbag" Bernstorff, Constantine Dumba, Hindenburg, the Kaiser, the germ spreaders in Rumania, the submarine pirates who sunk the Lusitania and murdered the crew of the Belgian Prince; the butchers in Turkey and the butchers at Louvain.

The *Outlook* quotes the following prediction, applicable to present-day conditions, from Napoleon's St. Helena utterances: "I made the mistake of my career when I had the opportunity that I did not remove the Hohenzollerns from the throne of Prussia. As long as this house reigns and until the red cap of liberty is erected in Germany there will be no peace in Europe."

Ebell Club of Oakland, a woman's organization, has named one hundred of its most prominent members to work for the success of the second Liberty Loan. If all other organizations of citizens show as much activity, relatively, success is assured.

The city attorney of Calexico objects to the ringing of the angelus by the Church of Our Lady of Guadalupe in that city because it wakes him up at 7 o'clock. If the city attorney would "work" in the daytime and go to bed early he would not be annoyed by an early awakening.

The population of the national capital has increased 60,000 in the last six months. And all the persons who would like to run the government are not in Washington by any means.

New York may be disgusted with Mayor Thompson of Chicago but she has been compelled to respect the White Sox.

Work, save, buy a bond, win the war, protect your home, keep America a safe land of freedom for your children.

WHY WE ARE AT WAR.

Ours is a war of self-defense. We did not wish to fight Germany. She made this attack upon us—not on our shores, but on our ships, our lives, our peace and our property. For two years and more we held to a neutrality that made us apologists for things which outraged man's common sense of fair play and humanity. At each new offense—the invasion of Belgium, the killing of civilian prisoners, the attacks on Scarborough and other defenseless towns, the laying of mines in neutral waters, the sending off of the seas—and on and on through the months we said, "This is war—archaic, uncivilized war, but war! All rules have been thrown away, all civility, man has come down to the primitive brute. And while we cannot justify we will not intervene. It is not our war."

Then why are we in? Because we could not keep out. The invasion of Belgium, which opened the war, led to the invasion of the United States by slow, steady, logical steps. Our sympathies evolved into a conviction of self-interest. Our love of fair play ripened into alarm at our own peril. We talked in the language and spirit of good faith and sincerity. We said men should talk, that we discovered that our talk was construed as cowardice. And Mexico was called upon to cow us. We talked as men would talk who cared alone for peace and the advancement of their own national interests, until we discovered that we were thought to be a nation of mere money-makers, devoid of all character—until we were told that we could not walk the highways of the world without permission of a Prussian soldier, that our ships might not sail without wearing a striped uniform of humiliation upon a narrow path of national subservience. We talked as men talk who look for honest agreement, not for war, until we found that the treaty term to pieces at large was but the symbol of a policy that made agreements worthless against a purpose that knew no word but success.

And so we came into this war for ourselves. It is a war to save America—to preserve self-respect, to justify our right to live as we have lived, not as someone else wishes us to live. In the name of freedom we challenge with ships and men, money, and an undaunted spirit that word "Verboten" which Germany has written upon the sea and upon the land. For America is not the name of so much territory. It is a living spirit, born in travel, grown in the rough school of bitter experiences, a living spirit which has purpose and pride and conscience—knows why it lives and to what end, knows how it comes to be respected by the world, and hopes to retain that respect by living on with the light of Lincoln's love of man as his old and new testament. It is more precious than America should live than that we Americans should live.—Franklin K. Lane, Secretary of the Interior.

NOTES and COMMENT

We read that the diet of State institutions is to be modified "to conform to that of private families." Which might be taken to mean that the State's wards are henceforth to live no better than the general run of folks who have to support themselves. War is a great leveler, indeed.

Congressman Kahn is not a comfort to those afflicted with pedals of low temperature. Recently he prophesied that the war would not end before 1920. Now he expresses the belief that the draft age will be raised. "Somebody is always," etc.

Notwithstanding the likelihood of its being found out, and the certainty of punishment when it is found out, there are still those who would sell liquor to soldiers. That they run the risk of imprisonment and heavy fines for the small profit they realize never seems to be considered.

The irony of things is illustrated in the fact that the successor of Dudley Field Malone as collector of the port of New York is an anti-suffragist. Malone resigned because of the President's lukewarmness toward the suffrage question after Malone had proclaimed he was friendly to it.

Loyalty is not a matter for argument. It is like that highest quality in Caesar's wife—if it needs explanation or defense it is valueless. Qualified loyalty is not the kind that the country needs. All of which applies to the LaFollette episode.

The *Enterprise* describes a day of rest at Chico: "The deer season ends Sunday and the duck season opens Tuesday. Local nimrods will have to content themselves on Monday by resting in their favorite cigar stores and barber shops, and by taking a few verbal shots at such offensive characters as members of the State Fish and Game Commission, the State Highway Commission, Marshal Goe, and Albert, the speed cop."

Alameda is to have a "psychopathic clinic." The idea of the new chief of police is that it is important to ascertain just why people infringe the law. The old way was to put it down to "pure cussedness," but the modern idea is that there are other reasons.

The fact should not be lost sight of that the terrific struggle between the Sox and Glants was ended without a decision as to the true and correct way of pronouncing "Cleotie."

The published account to the effect that a selection of a naval base had been made was on the face of doubtful authority. It appeared in but one paper. Now comes authoritative news from the Secretary of the Navy that a selection has not been made. It would be informative if the selection would be vouchsafed as to why the delay.

The rumor that the Kaiser is to come across and diver ships off the American coast would be more probable if he was not having so much difficulty in staying successfully at home with his murderous enterprises.

The Iowa man of 10 who eloped had no difficulty in establishing that he did not run away to escape the draft. Though it might be argued that he did not escape it in every sense.

LaFollette balked before the inquiring committee, and there is a better prospect of something resulting in consequence. The committee will obtain its information from other sources.

Occult observation from the Goldfield Tribune: "Carloads of rabbits for the commissary department of army cantonments sends another wireless message of doom to Potsdam. An assured supply of left-hand feet, plucked in the dark of the moon, makes the finish a matter of getting a sure thing to the front."

Somebody having called attention to a shortage of one dollar bills, the *Hanford Journal* admits that it had noticed it; "also a shortage of two dollar bills, and five dollar bills, and ten dollar bills, and several other denominations."

SPIRIT OF THE STATE PRESS

Nice thought of the Lodi grape-growers, that of getting together and sending a carload of Tokays to the San Joaquin boys at Camp Lewis. The California misses his fruit. He may not realize how much it means to him at home, where fruit is eaten by all of us nearly as freely as we drink water, but a few days where the stuff is scarce, and there's a great longing in the California department of the Interior. Those boys will welcome that carload of grapes.—Stockton Mail.

If the early bird catches the worm, San Joaquin county has a man who ought to get a whole nest of worms. His name is Otto Von Better, and he announced himself now, in the month of October, as a candidate for district attorney of his county at the primary election to be held in August of 1918. If Otto doesn't get the job it will not be because he failed to enter the race in time.—Bakersfield Californian.

A housewife writes to the *Sacramento Bee* that she is tired of being told not to waste foodstuffs. At present prices, she says, there are none at her home to waste. Which awakes a quick feeling of friendly sympathy in Santa Rosa, for misery loves company. Here we pay 8 cents for a nice little loaf, and the only part of it that ever escapes is the place where the price tag sticks. Fido wears a reproachful look all the time, and the family cat has learned to catch sophters.—Santa Rosa Republican.

The University of California announces a list of twenty-five honor students—that is, Juniors and Seniors who have maintained honor standing for half a year. The interesting thing is that of the twenty-five students on that list, twenty are women.—Fresno Republican.

HELP UNCLE SAM'S LIBERTY BOYS MONDAY NIGHT!

NO SUGAR SHORTAGE FOR WEST

SAN FRANCISCO, Oct. 18.—The West need not fear a sugar famine and there will be plenty not only for the United States, but for her allies during the next twelve months. If American housewives keep their heads.

But if the housewives become panic-stricken and begin buying sacks of sugar just on the chance there is going to be a shortage, then there will be trouble ahead.

That is the opinion of a leading western sugar dealer expressed here today.

NEW YORK, Oct. 18.—New York housewives felt the first pinch of war on their food supplies today when they found it impossible to buy large quantities of sugar.

Many dealers refused to sell more than one pound to any one individual. Other grocers set the limit at two pounds, but refused to sell until \$1 worth of other goods was taken.

Dealers declared they were unable to get sugar from the refineries and predicted acute sugar shortage by the end of the week.

Housewives who tried to lay in a good sugar supply by going from store to store and buying the maximum allowance of two pounds found grocers refusing to sell any sugar whatsoever, except to regular customers.

CHICAGO, Oct. 18.—Uncle Sam's sweet tooth will suffer until the present sugar famine is relieved by western beet sugar manufacturers.

Relief for the west, middle west and southwest will come in about thirty days, Chicago dealers declared today—the rest of the country will have to wait sixty to ninety days.

DENVER, Oct. 18.—Charging that low prices paid to producers and child labor employed by foreign sugar companies have driven nearly all farmers except the foreign element out of the Colorado beet sugar industry, an appeal from growers to Herbert Hoover to fix the price paid to farmers for sugar beets is today on its way to Washington.

SCHOOLS WILL AID

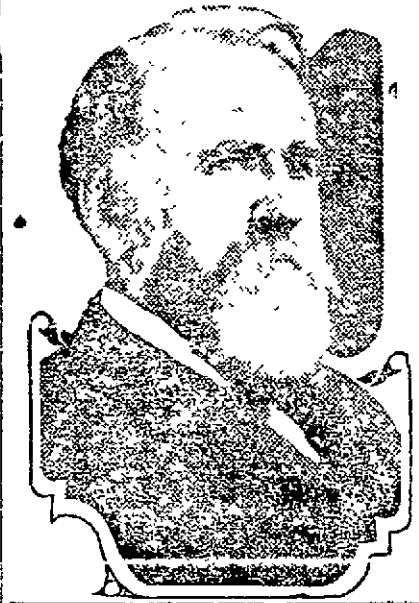

Appealing not only to Young America's patriotism but also to its liking for the sweet things of life, teachers and pupils of the Grant school, Broadway and Twelfth street, are co-operating in the sale of candy, nuts, sandwiches and ice cream, returns from which will be used to purchase Liberty bonds.

Plans of those directing the sales call for a pie and sandwich sale tomorrow. Yesterday's candy campaign brought \$5 into the Liberty fund. It is the ambition of the school boys and girls, together with their instructors, to purchase two \$10 bonds in the name of the school. The ice cream sale will take place next week—probably Tuesday.

Is Woman Nearer Savage? Not So, Says Economist

DR. DUDLEY A. SARGENT

Dr. Peixotto Defends Sex Against Hemingway

GIRL'S RETURN DEEPENS MYSTERY

Returning to her home as mysteriously as she disappeared from the Technical High School last Monday noon, Mabel Ramsey, 15-year-old daughter of Mrs. E. J. Ramsey, of 2654 Rhoda avenue, today related a vivid story of having been dragged by a mysterious stranger who took her to San Francisco and kept her there for two days, according to the version of the case received by Captain of Inspectors Green.

The girl was located last night by her sister and led home. She appeared to be either under the influence of a drug or of liquor and the family physician was called in to administer to her.

After notifying the police of the girl's return the family became reticent and asked that the entire matter be dropped, but today Captain Green decided to make further investigation and Inspectors Wells and Duffin were assigned to the inquiry. Miss Ramsey left her classes at the technical high school Monday noon, stating that she was ill and desired to return home. She failed to appear at her mother's home and no further trace of her was found until she arrived last night.

WOMEN TO SPEAK

LAFAYETTE, Oct. 18.—Mrs. Vernon Kellogg, the only woman commissioner to Belgium, and Miss Ethel Moore of Oakland, member of the State Council of Defense, will lecture here on Sunday afternoon at 2 o'clock in the hall of the Lafayette Improvement Association under the auspices of the Red Cross. Announcement of the lectures has created a widespread interest, and it is anticipated that the hall will be filled to its capacity.

Are women the equals of men, capable of taking the place of the "stronger" sex in all activities of life, or are they weaklings, incapable of prolonged labor and fitted only for home duties?

Dr. Dudley A. Sargent, director of Hemingway gymnasium, Harvard university, declares that the average woman would make as good a soldier as the average man. Dr. Jessica Peixotto, professor of social economics in the University of California, says that they are not physically fit to work in the fields and factories in the place of men called to the colors.

"Found for pound," asserts the Harvard savant, "the average normal woman in good health can endure more pain, discomfort and fatigue, and can expend more muscular energy than the average normal man of similar condition. Nine times out of ten, women from the standpoint of physical endurance should make as good a soldier as man."

"Woman of necessity comes nearer to the primitive type than man. She is biologically more of a savage, more of a barbarian, and she has therefore greater endurance. She can undergo many strains that a man cannot. Withstanding cold or thirst or hunger or physical privation of any kind, a woman can outlast a man."

TAKES OPPOSITE STAND.

Dr. Peixotto takes the opposite stand and opposes the lowering of the legal bars protecting women and children from the necessity of labor. She elaborated her plea in an address at a meeting of the Berkeley center of the California Civic League.

"Don't start the plan of putting women in the fields," she pleaded. "They are not trained for it. Perhaps they ought to be, but they are not. Until we are sure the labor supply is not sufficient, we should not repeat the mistakes of England and France in sending the women into the field and factories without thought to the ultimate cost. As the call comes for labor, be sure it is a real call. Neither close your schools earlier nor send your children out to work earlier than usual."

Dr. Peixotto urged especially against tearing down the protective barriers and declared that only disease and trouble would result if precautions taken in time of peace were ignored in time of war. She mentioned particularly the sweatshops of the east.

"There should not be a need," Dr. Peixotto continued, "of the mothers deserting their children to others care. The mother's place is in the home and we should see that she is kept there. England and France saw their error too late. Let us profit by their mistakes, not duplicate them."

PLEADS FOR WORKERS.

Dr. Peixotto made an additional plea against forcing the burden of the war upon the lower-paid classes. She said:

"We cannot penalize the minimum

LAUGH A BIT, AND DO YOUR BIT FOR 'EM

Got your ticket yet?

You'll be there, of course!

Almost all Oakland ought to be at the Orpheum Monday night—ought to help Oakland's boys at Camp Lewis get their baseball outfits and the athletic supplies they need so badly. It's the simplest way to help that was ever devised—just go to a show—a great show, at that—one of the best the city has ever seen. No one will be asked to give away money or make subscriptions to anything—just drop into the Orpheum Monday night and enjoy yourself and leave the rest to The TRIBUNE and Captain Edwin Callaghan, athletic officer at Camp Lewis.

Every cent of profit at the Orpheum Monday night will be turned over to The TRIBUNE which, in turn, will turn it over to the camp's athletic leader, Manager Harry Cornell and the surest way to raise the fund necessary with the least possible delay—and choose the easiest way for you to help. You'd go to a show anyway—just make it Monday night, and make it the Orpheum.

SUPPLIES GRAVE NEED.

Athletic supplies are the crying need at the camp of the drafted men today. They long for something to occupy their minds—for recreation—and baseball and athletics are the surest cure for the blues and the best possible diversion for the men.

Captain Callaghan says that the need for athletics in an army is almost as great as the need for guns—for the sake of the very efficiency of the army. The boys are now playing with a couple of old baseballs and need equipment for every company. They have appealed to The TRIBUNE and to YOU—to help them out. Uncle Sam can't do it—he's got too much now to handle—and he wants YOU to take this responsibility off his shoulders. Help make the soldier's life more pleasant. YOUR boy may be among them. If not, help somebody else's boy. It's such a little thing to do to help—just go to a show Monday night and enjoy yourself.

Pick up your telephone—right now, we're on the line—and ring up Oakland 711, the Orpheum box office, and reserve a seat. You can call for it next time you're downtown. The box office is open from 9 o'clock in the morning to 10 at night. You will be given every attention.

That's all there is to do—except laugh Monday night, when "The Night Boat" and "The Wild Guardians" and "Sassy Lillian" Gonna, the wonderful little "School Days" comedienne, now grown up, but just as clever, and a great all-star bill of all-Orpheum vaudeville will be offered for your amusement.

You'll be sure to enjoy the show.

And you'll be sure to feel better in the thought that you "did your bit" for the boys by enjoying the show.

So just ring up Oakland 711, now, and reserve your seats.

WAGE WITHOUT PAYING FOR IT IN UNDER-PAID INDIVIDUALS.

Families depending upon low incomes should not be taxed with war burdens. She placed \$1400 as the lowest possible income for the support of a man and wife and three children without war burdens being added.

ARREST AUTOIST

SAN FRANCISCO, Oct. 18.—Miss Anna Dolan, aged 16, is dead today, and Earl Cooper, chauffeur, under arrest, the result of an automobile accident late yesterday. Miss Dolan was returning from night school with two girl friends when a big limousine driven by Cooper and said to have been speeding, struck her. She died before reaching a hospital.

NOTED STARS TO ENTERTAIN HOW'S THIS FOR A PROGRAM?

You know about Monday night's benefit at the Orpheum for The TRIBUNE baseball fund for the boys at Camp Lewis.

You know you're going to help—and here is what you get out of it yourself: You see one of the best all-Orpheum bills of the season—a splendid aggregation of all star attractions—Orpheum vaudeville—REAL vaudeville! Note the names!

THE NIGHT BOAT.

When John B. Hyner wrote this he had to laugh himself, and he was used to thinking about the idea in it! So imagine what you'll do to it!

GEORGE MARCK'S JUNGLE PLAYERS.

Human actors and animal actors are on the same cast in a remarkable wordless play in this act. There are four lions in the cast. This is not the usual "trained animal" act at all—these lions have been trained as actors—and they really act. You've never seen anything like them—and you'll marvel.

THE JORDAN GIRLS.

It's hard enough just to stay on a tight wire without falling—but they do all kinds of tricks on it. You'd think it impossible to do the things they do, unless you actually saw them.

COLONEL DIAMOND AND GRAND-DAUGHTER.

Col. Diamond says there's no such thing as old age—and he proves it. He's a better dancer than most of the young fellows. He has a mighty pretty

ASKS DAMAGES

Henry Masche, an employee of the Tech garage, issuing James K. Lynch, president of the Citizens' National Bank, for \$300 costs and \$1000 injury as a result of a collision between the automobile driven by the plaintiff and a machine owned by Lynch and driven by his employee, George Palmer, at the crossing of Calcutt street and Miles avenue on October 3. The Tech garage is at the same time suing Lynch for damages to the car driven by Masche.

FIRM MUST PAY

By stipulation between the parties, the Peerless Motor Drayage Company is given a judgment for \$300 against H. F. LaVoe, Frank K. Mott and others of the City Sanitary Reduction Company for work done in connection with the recent garbage disposal contract with the city. The amount sued for was \$1915.

OCTOBER 20

BUY LIBERTY BONDS AND JOIN "ROLL OF HONOR!"

WORKERS SET EXAMPLE IN PATRIOTISM

The Liberty bonds "roll of honor" is increasing hourly in Alameda county.

Is your name on this list of patriots—real American citizens?
Have you bought a Liberty bond?
Have you invested in the safest and best security in the world?

Are you wearing the badge of honor—the Liberty bond button?

From Oakland wage earners and employers alone came a flood of money yesterday and today, roughly estimated at \$200,000.

And every one of these dollars have been invested in Liberty bonds. Alameda county's total is now estimated at \$2,000,000. This means that there is still a deficit of \$8,000,000 if the county is to fulfill the minimum allotment of \$10,000,000.

See that you do your part. Remember the babies of the Lusitania, know that for every dollar you lend Uncle Sam just that much sooner will the great war end; just that much sooner will your brother, your son, your neighbor's son, take off his khaki and return to the ways of peace; that autocracy will have been stamped out once for all; that America—your country—will have saved the world for democracy.

It was in this spirit that the wage-earners of a half score of Oakland industrial plants dug deep into their pockets yesterday and today and made that sacrifice that puts them on Uncle Sam's roll of honor.

SET GOOD EXAMPLE.

The employers of labor set the example yesterday by subscribing as follows:

Chevrolet Motor Car Company \$50,000
California Cotton Mills 25,000
D. J. Hanlon Dry Dock Co. 25,000

And to this list was added the name of Frank Proctor, a volunteer Liberty bond campaign worker who subscribed to bonds in the amount of \$25,000.

And then came the wage-earners—the men and women who are the real voice of these United States.

Gray-haired women and laughing girls, young boys and toll-hardened men of the California Cotton Mills, after listening to a straight-from-the-shoulder talk by Rev. J. Crosby and the cotton mills manager, Jack Miller, eagerly wrote their names on the company's books for Liberty bonds to the amount of \$5,000.

The company has arranged an easy-payment plan for the Liberty bond investors, accepting \$1 a week on a \$50 bond. Miller has purchased bonds in the amount of \$2,000.

Thirty-eight hundred and fifty dollars was subscribed by the men of the Chevrolet Company and many more announced their intention of buying the new Liberty 4s. Many of these men were purchasers of the first Liberty bonds.

"You can pay for them on your own terms," said F. H. Block, cost accountant, who addressed the men before introducing the speaker of the day, William T. Satterwhite.

The Chevrolet Company's investment of \$50,000 was announced in a telegram from W. C. Durant, vice-president, who is now in New York.

sent to Norman De Vaux, manager of the local plant. It reads:

"Norman De Vaux: Chevrolet Motor Company authorizes the purchase of \$500,000 in Liberty bonds, \$50,000

of which has been allotted to California division. Please make this subscription through local committee.

"W. C. DURANT."

SHIPBUILDERS BUY BONDS.

At the Hanlon Dry Dock Company Judge Jesse J. Dunn and G. L. Dealey spoke. Seventy-five of the ship builders invested in bonds to the amount of \$1450. Dealey took the names of the patriots and complimented each man for being "an American & lover of liberty and justice and fair play for all peoples, great or small."

D. J. Hanlon, the owner of the plant, invested \$25,000.

Thirty-three of the fifty men employed at the Union Gas Engine Company bought bonds yesterday. Their total subscriptions amounted to \$2950.

Earl D. White was the speaker.

The Skandia Pacific Oil Company presented twenty-two workers who invested \$1450 in Liberty bonds without hesitation.

At the United Iron Works \$500 has been invested by the men to date and more is coming in. Marvinmont & Wright report that fourteen of its employees have bought \$800 worth of bonds.

All Oakland banks will remain open from 7 o'clock until 10 o'clock each evening until October 28, accommodating Liberty bond investors who are unable to get to the banks during banking hours, 10 a. m. to 3 p. m. From 3 o'clock until 7 p. m. the banks will be closed, but will open promptly at 7 o'clock each evening. Special forces of clerks have been placed in charge of the Liberty bond departments.

BRANCH HOUSES AID.

Oakland branch houses of leading business establishments have invested \$92,250 through Oakland banks in Liberty bonds, as follows:

Western Pacific and Denver and Rio Grande Railway \$25,000
Santa Cruz Portland Cement and John D. Dusenbury 10,000
Associated Oil Co. 10,000
R. W. Kinney Co. 10,000
O. J. Meads of Meads Restaurant 10,000
Oakland Meat & Packing Co. 5,000
Ziegler, Sweeney & Co. 5,000
Hedberg Paper Co. 5,000
Gladding McLean Co. 2,500
Sherman, Clay & Co. 2,500
Geo. H. Tay Co. 2,000
Pacific Mfg. Co. 1,000
Spartan Harness Co. 1,000
C. W. Ford Co. 500
Fred Harrisok 500
R. B. Swaine 250

Total \$92,250

The following branch houses write they will give to Oakland a liberal share of their subscription to the Liberty Loan:

W. F. Baile Company, William Cluff Company, Kohler & Chase, United Auto Supply Company, Simon Millinery Supply Company, The Toggerv Cloak and Suit House, William Knowles, R. E. Cochran Co., Inc., Elmer Music Company, Phoenix Milling Company, Albers Mining Company, Southern Pacific Company, Atchison, Topeka & Santa Fe Railway System, Postal Telegraph Company, Pacific Gas and Electric Company.

PIANOLA

The Greatest of Them All

Within twenty years the name "Pianola" has become so universal that today it is a descriptive term—it is used to designate any and all Player instruments.

But remember that *the Pianola is a certain and particular player instrument.* It contains many basic features, many exclusive devices, which make it stand out head and shoulders above all others.

The Pianola is made by The Aeolian Company and is made in Steinway, Weber, Steck, Wheelock and Stroud models, also as the Aeolian Pianola.

Pianolas From \$520

(Aeolian Player Piano \$450)

Convenient Terms of Payment Arranged

We also carry Steinway and other Pianos, Pianola Pianos, Aeolian Player Pianos, Player Music, Victrolas and Records, Ukuleles, Musical Instruments, Sheet Music.

Sherman, Clay & Co

Fourteenth and Clay Sts., Oakland

Kearny and Sutter Sts., San Francisco

MISS ANN ALJIAN, a fair Liberty Bond booster, who says: "Shop early—buy a Liberty bond. Do your part for the boys at the front."

Half of Second Big Loan Is Subscribed in Short Order

WASHINGTON, Oct. 18.—One half of the \$3,000,000,000 second Liberty loan of 1917 has been subscribed.

This was the estimate of the Treasury Department today.

The return from the twelve federal reserve banks do not make this total, but computation from them, allowing for subscriptions that have not yet shown in official reports, makes this total.

The workers for the loan were today informed by telegram that \$400,000,000 daily must be turned in if the \$3,000,000,000 that is the aim of the government is to be realized.

A mighty spurt was reported from the banks today.

RIVALRY AT CAMPS.

CAMP KEARNY, Oct. 18.—With the lead in Liberty Bond sales suddenly taken away by Camp Shelby, at Hattiesburg, Miss., those commanding the drive at Camp Kearny renewed aggressiveness today.

Colonel R. W. Means, directly in charge of the bond campaign under Brigadier General Cameron, directed his efforts with the Utah troops late yesterday and got \$20,000 in subscriptions within an hour.

Including yesterday's work, 4907 men at Camp Kearny have bought

\$459,950 worth of bonds, an average subscription of \$53.72. The average at Camp Shelby is \$63.67 and of Camp Sevier, Greenville, S. C., third in the list of army camps, \$39.20.

A grand total of \$25,000,000 of bonds has been bought by all the training camps in the country.

LOS ANGELES, Oct. 18.—Southern California's Liberty loan allotment of \$41,500,000 is only about 15 per cent subscribed, according to the latest available figures. Excludes of San Diego and Kern counties and Pasadena, the amount subscribed was today estimated at \$5,000,000.

STOCKTON LOAN COMMITTEE.

STOCKTON, Oct. 18.—The Stockton Liberty loan committee wants to know whether any other city of 40,000 population in the United States can show a single subscription of a million dollars. That is the amount of the subscription handed to Mary Woods Douglas, one of Stockton's finest hostesses, this morning by President R. B. Teely of the San Joaquin Valley National Bank.

It will take \$4,900,000 to build Stockton's Liberty loan soldier now being erected in the Courthouse Park. Today's subscription completes him on the canvas from the hat down to the waist line and gives him a rifle with bayonet.

SHIPBUILDERS BUY BONDS.

At the Hanlon Dry Dock Company Judge Jesse J. Dunn and G. L. Dealey spoke. Seventy-five of the ship builders invested in bonds to the amount of \$1450. Dealey took the names of the patriots and complimented each man for being "an American & lover of liberty and justice and fair play for all peoples, great or small."

D. J. Hanlon, the owner of the plant, invested \$25,000.

Thirty-three of the fifty men employed at the Union Gas Engine Company bought bonds yesterday. Their total subscriptions amounted to \$2950.

Earl D. White was the speaker.

The Skandia Pacific Oil Company presented twenty-two workers who invested \$1450 in Liberty bonds without hesitation.

At the United Iron Works \$500 has been invested by the men to date and more is coming in. Marvinmont & Wright report that fourteen of its employees have bought \$800 worth of bonds.

All Oakland banks will remain open from 7 o'clock until 10 o'clock each evening until October 28, accommodating Liberty bond investors who are unable to get to the banks during banking hours, 10 a. m. to 3 p. m. From 3 o'clock until 7 p. m. the banks will be closed, but will open promptly at 7 o'clock each evening. Special forces of clerks have been placed in charge of the Liberty bond departments.

BRANCH HOUSES AID.

Oakland branch houses of leading business establishments have invested \$92,250 through Oakland banks in Liberty bonds, as follows:

Western Pacific and Denver and Rio Grande Railway \$25,000
Santa Cruz Portland Cement and John D. Dusenbury 10,000
Associated Oil Co. 10,000
R. W. Kinney Co. 10,000
O. J. Meads of Meads Restaurant 10,000
Oakland Meat & Packing Co. 5,000
Ziegler, Sweeney & Co. 5,000
Hedberg Paper Co. 5,000
Gladding McLean Co. 2,500
Sherman, Clay & Co. 2,500
Geo. H. Tay Co. 2,000
Pacific Mfg. Co. 1,000
Spartan Harness Co. 1,000
C. W. Ford Co. 500
Fred Harrisok 500
R. B. Swaine 250

Total \$92,250

The following branch houses write they will give to Oakland a liberal share of their subscription to the Liberty Loan:

W. F. Baile Company, William Cluff Company, Kohler & Chase, United Auto Supply Company, Simon Millinery Supply Company, The Toggerv Cloak and Suit House, William Knowles, R. E. Cochran Co., Inc., Elmer Music Company, Phoenix Milling Company, Albers Mining Company, Southern Pacific Company, Atchison, Topeka & Santa Fe Railway System, Postal Telegraph Company, Pacific Gas and Electric Company.

FACTORIES UNITE TO MAKE PLANES

Comprehensive plans for co-ordinating the efforts of Oakland's factories, using all spare equipment to manufacture airplane parts, to be sent to a central assembling plant, are being perfected by Chamber of Commerce committees, following the return of Secretary J. E. Caine from the East with news that the government is willing to contract for as many machines as can be made.

The plan for making the machines will be a co-operative one, if the system devised by the chamber committees is carried out. Spare machinery in the different factories will be used. One factory, for instance, may have a lathe idle part of the time. This would be used to turn out an airplane part. A barrel firm could not in extra time on the days when work on orders is slack by making ribs. Other firms could make other parts the same way. These parts would be taken to the central assembling plant.

TOWNSHIP MAY SPLIT IN ELECTION

SAN LEANDRO, Oct. 18.—With new candidates in the field for the justices and constabliques of Eden township, and a long-standing controversy over these positions involving rivalry between San Leandro and Hayward, and the threatened division of the township, yet to be settled, the forthcoming election promises one of the hardest fights in the political history of this end of the county. As far as indications go there will be four candidates for the two justiceships and five for the two positions of constable. The fight will be all the keener from the fact that D. U. Toffelmier, former justice of the peace, and Manuel Borge, former constable, both of this city, have announced their intention of attempting to regain their old offices at the next election. Borge is the latest candidate to come forward. The controversy over these political jobs in Eden township arose at the last general election when Hayward candidates were elected to the two positions of justice and also those of constable, Frank Mitchell, Jr., of Hayward defeating D. U. Toffelmier and

Manuel Borge of this city.

SON TOO YOUNG TO WED; MOTHER ASKS ANNULMENT

Because her son, Earl F. McKeegan, was only 18 years old when he married Guenivere Merrill last December, at Napa, Mrs. Mary McKeegan has asked for a court order of annulment. The youthful husband is living at home with his mother at 2789 Huby street, the domestic affairs of the young couple having gone awry at their downtown apartment.

"I didn't ask for an annulment at the time of the marriage, thinking it best to let them find out how they could get along in double harness," said the mother today. Further than that she would not talk of the difficulties that led to the proceedings for annulment.

Al La Cunha of Hayward defeating Justice Charles Prouse and Constable W. J. Ramage, both of Hayward, were re-elected. Immediately following the election, an agitation was started here to divide Eden township into two separate townships, so that San Leandro and Hayward and those portions of the townships of which they are centers would be in a position to elect their own justices and constables. Nothing came of it, however, although San Leandro citizens still express displeasure over Hayward securing all the political plums.

The four candidates for the justiceships are Charles Prouse and Frank Mitchell, Jr., incumbents, of Hayward, and D. U. Toffelmier and City Attorney Harris P. Jones of this city; for the constabliques, W. J. Ramage and Al La Cunha of Hayward and Manuel Borge, P. M. Nevin and Night Watchman Manuel Valance of this city.

CHRISTMAS GIFTS FOR ARMY ASKED

To send a little Christmas cheer to the soldier boys at home or in France a corps of women under the direction of Mrs. Frank Milton Avery, at the Oakland Chapter of the Red Cross in the Athens Hotel, are working day and night to prepare 500 Christmas packets. The materials for these Christmas bags must be gathered and ready for shipping by October 28, otherwise they will not reach their final destination in time to make the holidays of the boys in the trenches a bit brighter.

To accomplish this the committee has sent out an appeal to the general public to help in the work of collecting the articles, of which Washington has sent a list, for "Christmas suggestions." Donations of any of the articles printed below, or of money to purchase the same will be gratefully received at the headquarters, the Athens Hotel, Seventeenth and Broadway.
